Public.

No. 88.

Extract from the Minutes of Consultation under date the 14th April 1859.

Read the following letters from the Chief Engineer.

Submits for consideration an estimate of 140, Rupees being the cost of printing and stationery of the Collector's Press for the year 1859, in the Department in Salem. (Here enter 21st March 1859, No. 8575.)

Submits for consideration an estimate of 140, Rupees being the cost of printing and stationery of the Collector's Press for the year 1859, in the Department in Salem. (Here enter 2nd April 1859, No. 9264.)

The Governor in Council is of opinion that it would be an economical arrangement if printed Forms for every Department of the service could be supplied from the Government Press in Fort St. George.

2. With a view of testing the practicability of such an arrangement, the Governor in Council resolves now to call on the Revenue Board and Chief Engineer to submit lists without delay of all the Forms required in the course of the year in their Departments respectively, with the number of each. Every Collector and every District Engineer should be called on to submit such a list, with a specimen of each Form; and these lists should be compiled by the head of the Department into a general list, to be laid before Government, accompanied by a single specimen of each Form.

3. Pending final orders on the subject, the District Engineers will procure from the Collectors such Forms as they require, paying for them out of the sum allowed for Contingent charges.

4. This order will be communicated to the other Departments of the Secretariat for observance there also.

I have been thinking of
 returning, even of an
 extended visit, but I am
 so much opposed to the
 present project of a
 visit from the South
 in that a Judge.
