construction on the property of the Public Consultation at Changan, which forms an item in the Budget
for 1859-1860.

(Signed) T. PUCHOT,
Chief Secretary

Public Works Department.

Journal

No. 890.

Extract from the Minutes of Consultation under date the 14th April 1929.
Read the letter by letter from Colonel C. E. FABER, Chief Engineer, to J. D. BOURDILLON, Esq., Secretary to Government, dated 7th April 1929, No. 8280.

P.S.

With reference to Extract Minutes Consultation, No. 2010 of the 2nd December 1928, I do hereby the honor to submit for the information of Government, the accompanying request of letter from the Chief and District Engineer of Guayaquil, recommending the construction of the proposed Police Catechery at Chiriqui, on emergency, as a consequence of the further state of the present building.

The Board of Revenue to whom the question was referred, states also that it is necessary for the building to be constructed as soon as possible, and under these circumstances, I beg to recommend that the same be authorized for the construction of the work entered on item No. 61, Part No. 2 of the Budget for 1929-30, on emergency.

Letter from J. D. BOURDILLON, Esq., Secretary to Government, to Colonel C. E. FABER, Chief Engineer, dated Chiriqui, 2nd February 1929, No. 87.

P.S.

I have the honor to forward herewith a letter addressed by the Acting District Engineer, dated the 12th January, No. 830, requesting that the construction of Government may be authorized for the construction of the Police Catechery at Chiriqui. The Catechery must be constructed as a permanent building, but from its present condition the same requires to be replaced by a new building should be undertaken at once.

Letter from Captain L. H. HARRINGTON, District Engineer of Guayaquil, to Colonel C. E. FABER, Chief Engineer, dated Guayaquil, 19th February 1929, No. 830.

P.S.

Government, as Extract Minutes Consultation, No. 2010, 2nd December 1928, authorized the construction of the Police Catechery at Chiriqui, and stated that the same appears in the Budget for 1929-30, and the same should be entered in the Budget of 1929-30, as the Government Office.

In forwarding the Minutes to your office, No. 821 of 16th September 1928, I stated that the building was in such a state of decay, built chiefly of mud, and, as stated in Mr. BOURDILLON's letter to Government No. 191, 27th December 1927, "in a most dilapidated and dangerous state." I recommended the immediate construction of a new Catechery, as an emergency measure, and as a permanent building for Police and Government business, to be constructed at once.

I have also forwarded a report from the District Engineer, Chiriqui, stating that, "on the morning of the 2nd January, one of the floors of the present building have fallen from above, and the same has been repaired, and it is of opinion that it is very unsafe, and the building is in a dangerous state, and it is recommended that it be replaced by a new building."

The Police and Revenue Committee, in forwarding to me Mr. Chiriqui's letter, states that "the Police Catechery is in a very dangerous condition, and that it is quite of opinion that a new one should be at once constructed."

I have the building and recommended that it should be a more solid structure to replace the present one, as it is in a state of decay, and it is recommended that the same be authorized for the construction of the work entered on item No. 61, Part No. 2 of the Budget for 1929-30, on emergency, as a consequence of the further state of the present building. I should propose on a page, some of about half the estimate for the same building, as the present building, being the building, Budget No. 10, to be replaced by May 1929.

4. There would not be time to consider the bill long before the time of its introduction as deferred to May. And if action is granted now every effort will be made to complete it before the middle of June.

7. This letter is forwarded through the Collector

20. 1. 1881

Extract from the Proceedings of the Board of Revenue, dated 22nd March 1880

Read Extract from the Proceedings of the Chief Engineer, Department Public Works, dated 12th March 1880, No. 4107, forwarding for the Board's opinion a request for the sanction of the Government of the Province of Bombay, regarding the opening of a new Public Cemetery at ...

(In Connection with March 1880, No. 200.)

The Board minutes that the letters of the local authorities have been read and passed as to the necessity of a new Cemetery being created as soon as possible.

(A. W. L. 1880.)

Approved: J. D. 1880

Secretary

On being so recommended to the Public Department of all matters to be sent to the Public Department of the Department dated 22nd November 1880 No. 100.
