PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the foliowing letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 2nd May 1859, No. 40.

I have the honor to forward for submission to Government, the accompanying Plan and Estimate, amounting to Rupees (250) two hundred and fifty, for the construction of a new Prisoner's Room to the Police Cutcherry at Vencatagherry in the Nellore District.

2. The Executive remarks that the Prisoner's Room attached to this Cutcherry is only 11′ × 8′ and much too small for the number of Prisoners requiring to be confined in it; at times numbering from 8 to 20, several of whom have therefore to be secured in the Verandah and as the Collector in returning the estimate to the District Engineer with his countersignature remarks that the new Room appear very necessary, I beg to recommend the same for the early sanction of Government.

Letter from Captain JOHN MULLINS, District Engineer, Nellore; to Lieutenant-Colonel J. H. BELL, Chief Engineer, dated Doogoorazpatam, 20th April 1859, No. 802.

I have the honor to forward for sanction a Plan and Estimate, amounting to Rupees 250, for adding a Prisoner's Room to the Police Cutcherry at Vencatagherry.

2. The Collector in returning the estimate countersigned observes that it "appears to be very necessary."

MEMORANDUM.

The Prisoner's Room already attached to this Cutcherry is only 11 by 8 feet, and is much too small for the Prisoners confined in it—at times there are from 8 to 20 Prisoners conveyed to this Cutcherry, on which account they are some of them obliged to be secured in the Verandah of the Cutcherry or compound. The present Prisoner's Room is also occupied as a Record Room, no other Room being attached to the Cutcherry to keep records in, I would therefore recommend the annexed estimate for sanction, to be constructed in 1859-60, there is no space in the compound for a larger Prisoner's room than the one now recommended for sanction.
