Proceedings of the Madras Government, Judicial Department,
15th August 1860.

Read the following Proceedings of the Board of Revenue, dated 26th July 1860, No. 3,438.

No. 108. Read Proceedings of the Madras Government, dated 21st June 1860, No. 771, requesting the Board to state what proportion of salaries should be debited to the Magisterial Department.

(In Cons., 22nd June 1860, No. 2,983.)

The Board have communicated with Mr. Pelly, and with the Inspector General of Mofussil Police, on the subject of the proportion of salaries which should be in future debited to the Magisterial Department, and have arrived at the conclusion that one-fifth of the aggregate charge for the Land Revenue Establishment in each District may fairly be debited to the Magisterial Department.

2. The annexed Memorandum shews the mode in which the calculation has been made, by which it will be observed that different ratios have been taken according to the amount of Magisterial duty performed by the different Officers.

3. The computation gives an average of one-fifth of the entire Land Revenue charge of each District, and the Board recommend that this proportion be taken for the debit instead of a separate ratio for each Officer vested jointly with Revenue and Magisterial powers.

4. This mode of shewing the charge will be more simple and less liable to lead to confusion in the accounts than that of debiting proportions of salaries varying according to the amount of duties performed, and will at the same time be quite as correct and equitable.
