Proceedings of the Madras Government, Judicial Department, 8*th September* 1860.

No. 48. Read the following letter from Lieutenant Colonel E. LAWFORD, for Chief Engineer, to the Secretary to Government, Department Public Works, Fort Saint George, dated Chepauk, 3rd September 1860, No. 4,392.

Judicial.

With reference to Proceedings Madras Government, marginally quoted, I have the honor to forward for submission to Government a letter from the District Engineer of Tanjore, explaining the arrangements proposed for adapting the buildings at Negapatam as Court Houses for the Civil and Sessions Judge, Principal Sudder Ameen, and Mufti Sudder Ameen.

No. 1,664, *dated* 4*th August* 1860.
No. 129, *dated* 10*th August* 1860.
Enclosures 2.
1 *Letter as above.*
1 *Do. from Colonel Lawford, No.* 99, *dated* 5*th May* 1860.

2. It appears that Mr. Clarke wishes the Collector's Bungalow to be so enlarged as to assimilate it to the Court Houses at Combaconum, which according to Captain Oakes' rough estimate would require an expenditure of 7 or 8,000 Rupees, but I fear that would not be the limit of the outlay, and as the Government Order only requires that the building should be adapted "for use temporarily" I do not suppose it is intended to incur so large an expense.

3. Captain Oakes desires to know whether he is authorized to proceed at once with the works above pointed out, and if not, whether he should provide the furniture required for the Courts of which a list is subjoined but no estimate of the cost.

4. Captain Oakes further begs to be informed from what Funds the sum required for these works is to be provided, as the whole amount available for the current year in the District has been allotted to other works already sanctioned.

5. In submitting this question for the consideration of Government I would beg to draw attention to the fact that there are at Tranquebar buildings adapted to the purposes of Court Houses and Jail which require, it is believed, little or no outlay to fit them for immediate occupation.

6. The large Government House recently filled with the Collector's Records, would form an excellent Sessions Court House, while there is ample room for the Petty Courts in the former Cutcherry, and for the Jail in the other buildings occupied as such in 1858.

7. The District Engineer has accordingly been called upon to report after strict examination whether the Government buildings at Tranquebar might not be equally well adapted for the purpose required by Government, and at a much less cost, which report and estimate will be submitted as soon as received.

Transferred to the Judicial Department.

4th September 1860.

(Signed) C. G. MASTER,
Deputy Secretary to Government.

No. 49. ORDER THEREON, 8th September 1860, No. 1,156.

The Government approve the proceedings reported in the above letter and direct that the Plan and Estimate for adapting the buildings at Tranquebar to Judicial purposes, referred to in the last paragraph of the Chief Engineer's letter, may be submitted to Government immediately on receipt.

(Signed) T. PYCROFT,
Chief Secretary.
