PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to J. D. BOURDILLON, Esq., Secretary to Government, dated Chepauk, 13th September 1860, No. 4,723 :—

SIR,

1. In reply to the Order of Government, dated 28th August 1860, No. 1,834, inquiring whether Mr. Rohde's proposal to commence with the European Penitentiary on the Hills from the resources provided for the Barracks at Wellington and under the superintendence of Captain Farewell, I have the honor to refer to paragraphs 7 to 9 of my letter of the 18th August 1860, from which it will be seen that the provision for the Barrack works is so much reduced that nothing will remain to be diverted from these works to the Penitentiary.

1 Letter from Special Executive Engineer, Wellington, dated 20th August 1860, No. 130, with 1 Statement.

2. There is no objection, however, to such supplies of Timber as may be required for the Penitentiary being allowed from the Mudamalai Forest, which is being worked by Captain Morgan, if, with reference to the representation made in my letter* of the 29th August 1860, No. 4,237, advances are made to him by the Collector of Coimbatore to enable him to continue to work the Forest as hitherto. But for the preparation of the site and of other building materials, no funds can be specially set aside from the limited amount now available.

* Referred to the Conservator of Forests by Order of Government, No. 1,848, dated 30th August 1860.

3. From paragraph 12 of my letter of the 18th August, already referred to, it will be observed that only Rupees 26,512 remained on the 15th August 1860, unappropriated out of the 3¾ lacs, which were reserved for unforeseen expenditure, if the arrangement proposed in that letter meets with the approval of Government. From the above sum the items noted in the margin have to be provided for, which will leave Rupees 17,042, after deducting Rupees 9,500 from the abovementioned sum of Rupees 26,542, of the balance Rupees 17,042, I recommend that a sum of Rupees 13,791 be set aside to meet an additional outlay expected to be required this year by the Special Executive Engineer at Wellington for the married quarters now nearly completed, which is in excess of the sum of Rupees 47,087 noted in the margin of paragraph 9 of my letter of the 18th August 1860, already referred to. Captain Farewell's letter of the 20th August 1860, No. 130, explanatory of the reason for the contemplated excess over the estimate for the married quarters is herewith forwarded, as it shows that during his Executive charge the works have been carried on at a comparatively less excess of cost above estimate than was the case previously. If the provision for the sum of Rupees 13,791 is allowed to be made from the above balance, as none other is available, there will then remain only Rupees 3,251, to meet any future unforeseen outlay.

Renewing the inner angle of the Paumbum Reef channel, Rupees 15,080, sanctioned in Order of the 15th June 1860, No. 1,261, but no provision was made in the List forwarded on the 18th August 1860, in the supposition that the work will not be proceeded with this year. Moiety of grant now to be provided for	7,540
	9,500

ORDER THEREON, 17th September 1860, No. 1,940.

1. This letter will be communicated to the Judicial Department, with reference to the Order in that Department dated August 22nd, No. 1,065.

2. No funds are available in the Public Works Department for the work proposed by Mr. Rohde.
