With the view of giving effect to the general supervision which it was contemplated by the Act III and IV. W. 4, C. 85, that the Government of India should exercise over the Proceedings of the Subordinate Governments, the following Circular instructions were issued under date the 11th July 1834.

"I am directed by His Excellency the Right Honorable the Governor General of India in "Council to request that you will, with the permission of the Right Honorable the Governor in "Council, forward to me for the information of His Lordship in Council, weekly Abstracts of the "Proceedings of the Council of *Fort Saint George* [*Bombay*] showing the substance of the documents submitted to the consideration of Government in the different Departments on each "Council day, and the orders passed thereon.

"With a view more clearly to indicate what is intended by this requisition and the form in "which the information is desired, I am directed to forward herewith, the accompanying copy of "the Abstract of the Consultations of Fort William in the General Department which are regularly submitted for the consideration of the Governor General in Council."

No alteration was made in these instructions up to 1856, when the Madras Government represented that having adopted the plan of printing the whole business of the Government, it seemed superfluous to continue the preparation of the weekly Abstracts, and suggested that, in place of them, permission should be given to send a printed copy of the full Proceedings. This was assented to, and subsequently the same arrangement was extended to the Bengal Government, where printing was also introduced.

With reference to the new plan,* which has recently been prescribed by the Secretary of State for the conduct of the Home correspondence, the Governor General in Council is pleased to direct that the weekly Abstracts of Proceedings, where they are still continued, be dispensed with, and that the local Governments which print their Proceedings be required to transmit *punctually* to the Government of India, every month, a copy of the *first* part of the printed volumes of the transactions of Government, which is ordered to be prepared for the Secretary of State,

* *Public Despatch, No. 50 of 1860, dated 7th April, communicated to the local Governments and Departments on the 15th May.*

and that the Governments which do not print their Proceedings be required to send a ma
copy of the Table of Contents which is to be annexed to the Proceedings according
form A given in the Secretary of State
Despatch.†

† *No. 50 of* 1860, *dated 7th April.*

The Governor General in Council observes that this Table of Contents, without the F
ings themselves, will not afford the same degree of information which is now afforded
present abstract of Proceedings, but if it be only sent with *punctuality*, His Excelle
Council thinks it will enable the Government of India sufficiently to supervise the proce
of the local Governments, by the much earlier opportunity which it will give of calling
correspondence, the subject of which may attract notice.

The *second* part of the Government transactions sent to the Home Government, com
matters of mere routine, the Governor General in Council does not think it necessary to r
