No. 10. To the Secretary to the Government of India, dated Fort Saint George, 28th March 1860, No. 378.

In continuation of my letter, under date 24th September last, Judicial Department, No. 1290, I am directed to report the arrangements which have been sanctioned by this Government for the reorganization of the Police Force in the District of Chingleput.

Proceedings, 19th March 1860, *No.* 334.

2. *Constabulary.*—The Constabulary force proposed by the Inspector General of Police consists of 18 Inspectors and 721 Constables, and will cost Rupees 84,690 per annum. It bears a ratio of one Policeman to every 827 of the population—and the expense is about 2 Annas a head per annum.

1 *Naigue's do.* }
Chingleput—$\frac{5}{4}$ *Company Veterans.*

3. The number of peons now under the Collector and Magistrate, and of those attached to the Jail, most of whom will be relieved, the strength of Military Detachments and Guards and of the Commissariat Police at the Mount, are as per margin.

4. The proposed force has been estimated for liberally, because the Chingleput District surrounds Madras—has within it the large Cantonment of Saint Thomas' Mount with Palaveram and Poonamallee—is intersected in all parts by the many much travelled roads converging to Madras—has in some parts a troublesome pariah population—and includes several of the stations along the Railway line. "The cash credit as per margin, however, obtained within the District, will nearly cover the charge, irrespective of the large relief to the Military, for which credit must be taken."

General District credit, i. e. sum obtained by reductions in the present Establishment		67,420
To be reduced	*Jail Establishment*	3,000
	Commissariat Police	4,000
Rupees		74,420

5. *Village Police.*—With regard to the Village Police, the district will be divided into 202 village circles, of an average area of 10·4 square miles, and a population of 4,900. The annual cost for the 202 Inspectors, one for each village circle, will be Rupees 8,484. This is properly a charge against the Menkavel funds, arising from resumptions which took place in 1802. Accurate accounts of this fund are in course of preparation, but it does not, Mr. Robinson believes, fall short of a lac of Rupees per annum. The present information regarding the Talári Police, however, is defective, and a separate report is promised hereafter. The number of Taláris registered is 4,727, but the number serving is 3,489. Their emoluments, Inám and Fees, are given as Rupees 93,475. It is calculated that 2,064 men would give to all villages a liberal establishment.

Inám	30,353
Fees	63,122
Rupees	93,475

6. The Government have sanctioned the estimated expenditure of Rupees 93,174 at a present net increase of eighteen thousand seven hundred and fifty-four Rupees, after allowing for the saving shown in the margin of paragraph 4 above, but not including the reductions which can be effected in the Native troops in consequence of the change. The Government have further directed that early measures be taken for the introduction of the New Police, for relieving the Military Guards, and for the reductions in the District, Jail and Commissariat Establishments, from which the larger portion of the expense is to be provided.
