Proceedings of the Madras Government, Judicial Department, 14th July 1860.

No. 83. Read the following letter from Lieutenant Colonel W. H. HORSLEY, Chief Engineer, to the Secretary to Government, Public Works Department, dated 6th July 1860, No. 2,397.

Enclosures 4.
1 *Letter from District Engineer, North Arcot, No.* 119, *dated* 19*th May* 1860, *with*
1 *List.*
1 *Letter from do. No.* 257, *dated* 27*th June* 1860.
1 *Abstract Estimate.*

I have the honor to forward for submission to Government an Estimate, amounting to Rupees (195) one hundred and ninety-five, received from the District Engineer of North Arcot, for putting up glazed and venetian doors and windows to the Session Court House at Chittoor.

2. In their Proceedings of the 1st February 1860, No. 261, Government sanctioned an Estimate, amounting to Rupees 40, for 4 glazed windows to the record room in the building above mentioned, and as it was not distinctly stated, in submitting the present Estimate, for what particular portions of the building the additional glazed doors and window, and the venetian window, were required, the District Engineer was requested to furnish information on this point; which he has now done in his letter of the 27th June 1860, No. 257. From this letter it appears, that the three glazed doors are required for the Court room itself in the centre of the building, the glazed window for the Sheristadar's room on the south, and the venetian window for the record room on the north side of the building. The necessity for these is stated to be, that in the Court room, with the exception of a glazed window, there are now only batten doors, which cannot be shut without excluding the light, and thus great inconvenience is caused in the transaction of public business; that in the Sheristadar's room there are no glass windows at all, and the same inconvenience is experienced here as in the Court room; and that in the record room, as the glass window there is liable to be broken, the venetian shutter is required for its protection, this being the only glass window not so protected.

9th June 1860, *No.* 1,424.

3. The Estimate, and the lists in duplicate which accompanied it, bear the countersignature of the Civil Judge, and the former has been duly examined and corrected in this Office; I have therefore to request the sanction of Government for the execution of the same from the Repair Funds at the disposal of the District Engineer.

Transferred to the Judicial Department.
