1 *Enclosure.*
1 *Plan.*
1 *Estimate, Rupees* 395.

I have the honor to forward herewith a Plan and Estimate amounting to Rupees (395) three hundred and ninety-five, for constructing a new Cattle Pound near the Chintadrepettah Bridge in lieu of old one in the western Esplanade.

2. The Commissioner of Police desired that the old Pound should be repaired and some improvements made consequent on the transfer of the Esplanade on which it is situated for the use of the People's Park, but the Barrack Master in his Memorandum, No. 1,232, herewith sent, suggested that a new one should be constructed, upon which the District Engineer, Presidency, was directed to give his opinion as to the necessity of a new Pound, and at the same time submit an Estimate for repairing the old one. In reply that Officer states that it will only be a waste of money to incur any expenditure upon the repair of the old Pound, as it is intended to be removed on the completion of the Park, and strongly urges that a new one should be constructed as being in the end the most economical.

3. Under these circumstances I beg to recommend that the Estimate for a new Pound which has been approved of by the Commissioner of Police and the Barrack Master, may be sanctioned for execution from the general fund at the disposal of the District Engineer, Presidency, the same having been examined and found correct in this Office.

Transferred to the Public Department.
