PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Lieutenant-Colonel W. H. HORSLEY, Chief Engineer, to
J. D. SIM, Esq., Secretary to Government, dated Chepauk, 18th May 1861, No. 662:—

SIR,

1 Letter from the District Engineer
North Canara, No. 230, dated 13th
April 1861.
1 Estimate.

1. I have the honor to forward a supplemental estimate
amounting to Rupees 360 received from the District Engineer
North Canara, for completing the Munsif's Court House at
Beitkál in that District.

2. The above work was sanctioned by Government on the 3rd January 1855, at an
estimated cost of Rupees 1,224, and up to the date of the restriction on expenditure in the
year 1857 Rupees 1,331, or Rupees 107 in excess of the estimate, were expended upon the
building, without, however, completing it.

3. The Civil and Sessions Judge on being applied to, intimated his wish that the Court
House should be finished; and to effect this the accompanying estimate, Rupees 360, is
forwarded.

4. Rupees 270 would have sufficed to carry out the intentions of the original estimate,
for all that remained to be done is flooring, plastering, and fixing doors and windows, but the
District Engineer, after personal inspection, found the covering of the roof to be formed
only of pantiles, and those insufficient in number, and poor in quality, and he therefore added
90 Rupees to the estimate prepared by his 1st Assistant with a view to provide flat tiles to be
placed under the pantiles, and to increase the number of the latter.

5. The estimate now submitted has undergone the usual examination in this Office, and
the rates therein allowed are moderate and sufficient, and as it has been approved of by the
Sessions Judge, I beg to recommend that sanction may be accorded for its immediate execu-
tion from the general funds at the disposal of the District Engineer North Canara, for the
year 1861-62.

ORDER THEREON, 5th June 1861, No. 1,051.

1. The estimate amounting to Rupees (360) three hundred and sixty, submitted with this
letter, is sanctioned for immediate execution out of the funds referred to in the last paragraph.

2. The Chief Engineer will ascertain who is responsible in the matter of the pantiles
referred to in paragraph 4, if he is of opinion that such an inquiry at the present time is likely
to prove successful.

(True Extract.)

Secretary to Government.
