3. The Salt Pans and Store yards in this district, the latter 21 in number, extend over an area of 20 to 25 square miles. Besides the permanent establishment provided for in the estimate, an extra guard of 50 men will be entertained during the manufacturing season, or for four months in each year. At present, there is a permanent force of 78 men, and an occasional body of 88 men employed for the protection of the salt depots. The cost of this temporary establishment as well as of the standing force - 45 men - for the salt stores and pans will be charged against the Salt Revenue.

4. The Constabulary will undertake the entire Police duty of the Collector and Magistrate's Town establishment at present numbering about 1300 men - of the Jail Guard 50 men - and will relieve the Military Guards at the Cocanada Treasury 36 men - attached to the Commissariat

36 men

36 men and 12 men at Dawlais -
= merand.

5. The Nayahmundry Selundies now 255 strong will be incorporated with the Constabulary. The Corps, reduced to 116 men of all ranks, will form a special Armed Reserve in the district. The cost of this body is included in the general estimate.

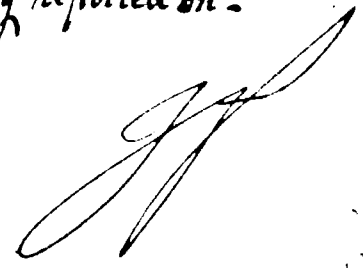

6. Mr. Robinson explains that in the estimate for the Nayahmundry talook, he has provided for the Police administration of the Zemindary of Rampah. He has given a sketch of the history of this wild tract. In Rampah proper or that part of the estate in the Hills there is now literally no Police whatever. The Zemindar lives in the plains and never visits it. Nominally it is under the jurisdiction of the Nayahmundry Tahsildar, but no cases are ever sent to him. It is practically an unknown land and the people do or do not take care of themselves. The new Police will not be introduced till the whole district is completed and the change thoroughly

thoroughly understood and appreciated
throughout the District itself.
