Proceedings of the Madras Government, Judicial Department,
3rd August 1861.

Read the following papers :—

No. 23. From R. COLE, Esq., Principal Inspector General Medical Department; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated 21st June 1861, No. 103.

Adverting to former correspondence and to paragraph 4 of the Order of Government dated 16th May 1861, No. 643, I have the honor to state for the information of Government, that the case of Surgeon Major Ford therein referred to, as well as that of Surgeon Major Macfarlane at Secunderabad, and other Military Medical Officers in charge of Civil Details, would come under the provisions of paragraph 25, page 6, Chapter XV of Civil Auditor's Manual, were not that rule abrogated by the Orders of Government dated 12th October and 24th December 1860.

2. I am informed by the Civil Auditor that the list of Medical Officers called for by Government in paragraph 3 of their Order now under notice is under preparation; on the completion of which, Government may be pleased, as appears to be contemplated by them, to pass their orders, as regards an allowance to Military Medical Officers in charge of Judicial Establishments or Civil Details, and I respectfully submit that, if remuneration is sanctioned, the grant may be made retrospective from the date on which, by the Orders of Government, the allowance formerly ceased.

No. 24. From W. WATERFIELD, Esq. Officiating Civil Auditor; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated 25th June 1861, No. 181.

Contingent Department.

As desired in para. 3 of the Proceedings of Government, No. 643, dated 16th May last, I beg to annex a list of Medical Officers in the Military Department, who drew Head money allowance for the Medical charge of non-combatants of the Civil Department, with the average amount drawn monthly for the last three years.

As to para. 4 of the above Proceedings I beg to state that Clause 2, para. 25, Chapter XV of the Civil Auditor's Manual which refers to Convicts and other non-combatants is founded on the G. O. No. 198 of 1852, the abrogation of which is affirmed by the order under reply.

MEMORANDUM.

The Principal Inspector General Medical Department, has the honor to inform the Chief Secretary to Government in reference to his Memorandum in the Judicial Department, No. 173, of the 4th instant, that Assistant Apothecary G. W. Phillips is at Paumben, and affords Medical aid to the detachment of Sappers and Miners and Public Works Department in addition to the charge of Convicts. He receives pay and allowances of his rank Rupees 70 per mensem.

2. Prior to January 1861, the Assistant Apothecary drew Head money for the Civil Establishments averaging monthly about Rupees 100, which is disallowed now under the G. O. G. No. 434 of 12th October 1860.

No. 26. ORDER THEREON, 3rd August 1861, No. 979.

By Orders of Government 12th October 1860, Military Department, 'No. 43s, and 24th December 1860, Judicial Department, No. 1,695, Medical Officers whether in the Military or Civil Department are not allowed to draw Head money on account of non-combatants in the Military Department not on the strength of Corps, except on actual field service where no field Hospital has been established.

2. By Order of 12th March 1861, Judicial Department, No. 335, the Government following the views of the Civil Auditor disallowed the claims of Medical Officers in the Military Department to Head money on account of Civil details as Convicts in Jails, &c. On being urged by the late Principal Inspector General Medical Department, to re-consider this order, they called for a list of the Officers affected by it, as having been in the habit of drawing Head money on account of Civil Establishments or details, with the average amount drawn by them monthly for each of the last three years of its being drawn.

* The orders in the preceding para. applied to Military details.

† G. O. 16th May 1861.

3. The list has now been furnished. The allowances vary from Rupees 4-3-5, to Rupees 71 per mensem, but the only instances in which they are of an amount worth consideration are :

	Average strength of Prisoners for 1859-1860.	Average drawn monthly.		
		RS.	AS.	P.
For the Ootacamund Jail...	76	38	3	1
For the Vellore Jail...	178	57	5	4
For the Paumben Jail...	212	71	1	5
For the Guindi Jail...	83	33	12	9

4. With regard to the Ootacamund Jail it may be said that the Medical Officers on the Neilgherries although they are appointed in the Military Department, and their pay is charged to that Department, are yet in reality Civil rather than Military Surgeons, and therefore have no claim for any extra remuneration for attending Civil details which should merely be considered part of their proper duty. There are no Troops at Ootacamund, and it is no longer a Cantonment. The Medical Officers are there to attend on all Government Servants Civil or Military. Moreover the senior of them who is the one in charge of the Convicts also draws an allowance of Rupees 50 per mensem for the charge of the Civil Dispensary. The Civil Auditor has observed that whether those Surgeons who have charge of Dispensaries should draw any thing additional on account of Government Servants such as Police (and it may be added on account of Convicts) appears very doubtful. In any case he does not think a Civil Surgeon entitled to the allowance.

Letter February 1861, No. 64, recorded in Proceedings, 12th March 1861, No. 335.

5. Paumben.—From a Memorandum received from the Principal Inspector General Medical Department, it seems that the Medical Officer at Paumben is an Assistant Apothecary. He receives the pay and allowances of his rank Rupees 70 per mensem which include full batta.

6. Prior to January 1861, Dr. Cole states he drew Head money for the Convicts averaging Rupees 100 monthly.

7. It does not appear why he should receive this. His duties are essentially Civil. He has to attend on the servants in the Public Works Department including a Detachment of Sappers and Miners and the Convicts.

† 27 Strong including Native Officers.

8. Including Head money his emoluments would amount to Rupees 100+70=170 per mensem or more than those of a first class Apothecary on full batta.

Proceedings of the Madras Government, Judicial Department,
3rd August 1861.

9. *Vellore*.—The prisoners at Vellore are confined in the bombproofs of the Fort at no great distance from the Civil Hospital or Dispensary. The Garrison Surgeon draws, besides his Military pay and allowances, Rupees 50 Civil pay for charge of the Dispensary.

NOTE.—His case would have fallen under para. 25, Chap. XV, Civil Auditor's Manual, viz., "that a Surgeon or Assistant Surgeon in receipt of consolidated Medical Staff salary, provided he has at the same time, under his care a force of the numerical strength of a complete Corps, for which he draws the prescribed salary is entitled to Head Money in the Civil Department, when affording Medical aid to convicts and the Peons in charge of them, and also to other Civil Public Establishments who do not form a portion of the Medical charge for which he receives the consolidated salary;" but the order on which this is founded, G. O. No. 198 of 1852, has, in the opinion of the Civil Auditor been abrogated by G. O. Military Department, 12th October 1860, No. 434.

The Garrison Surgeon at Vellore would also have fallen under this rule but then he has a Dispensary allowance while the Officer at the Mount draws no Civil allowance.

The Garrison Surgeons of Bellary and Trichinopoly, and the Depot Surgeon of Ouddalore, are ex-officio the Civil Surgeons of those stations in the absence of a fixed Civil Medical Officer. For the period that they discharge the Civil Medical duties of those Stations, they are entitled to an allowance in the case of Bellary and Ouddalore, to Rupees 65, and in the case of Trichinopoly to Rupees 100 per mensem.

A Medical Officer in Medical charge of a Regiment or the Wing of a Regiment when appointed as the Civil Surgeon of the same station receives Rupees 100 a month for the performance of the Civil duties in addition to his allowance for such charge. But then in all these cases the Officers undertake the whole Civil duty of the station and not the charge of Convicts only.

camund, Paumben, and Vellore Convicts. For those at Guindy, there seems to be reasonable ground for the claim. The principle of Head money is, however, bad and is disliked by the Officers themselves. The Government resolve to grant a consolidated allowance of Rupees (30) thirty per mensem, in lieu of Head money to the Officer in Medical charge of the Convicts in the Guindy Jail, so long as the numbers are about the present strength.

13. The Principal Inspector General Medical Department has requested that if the remuneration be granted, it may be made payable in arrears from the date of stoppage. The resolution in the preceding para. will accordingly have retrospective effect. If the amount to be disbursed cannot be met from the Budget sanction for 1861-62, the charge will be held in abeyance as an advance, and the Accountant General will include it in the Supplemental Budget at present under preparation.

5. From a Memo. received from the Principal Inspector General, Medical Department it seems that the Medical Officer at Caumburn is an Assistant Apothecary. He receives the pay and allowances of his rank \$2.70 per mensem which include full batta.

6. Prior to January 1861 Dr. Cole states he drew head money for the Convicts averaging \$1.100 monthly.

7. I cannot see why he should receive this. His duties are essentially civil. He has to attend on the servants in the Public Works Dept. including a Detachment of Sappers and Miners, and the Convicts.

8. Including head money his emoluments would amount to \$1.100 + \$70 = \$1.170 per mensem or more than those of a first class Apothecary on full batta. Why should they be?

9. The prisoners at Bellary are confined in the bombproof of the Fort at no great distance, as I understand not a quarter of a mile from the civil hospital at

Note. His case would have fallen under para 28 Chap. XV. Civil Auditor's Manual. That a Surgeon or Asst. Surgeon in receipt of consolidated Medical Staff Salary, provided he has at the same time, under his care, a force of the numerical strength of a complete Corps, for which he draws the prescribed salary, is entitled to head money in the Medical Dept. as an assisting medical aid to Convicts and the Prison in charge of them, and also to other Civil Public Works who do not form a portion of the Medical charge for which he receives the consolidated salary. But the order on which this is founded. G.O. No. 198 of 1852. has, in the opinion of the Civil Auditor, been also regulated by G.O. Military Dept. No. 12 October 1856. & 1856. The Assistant Surgeon at Bellary would also have fallen under this rule. But that he has a Dispensary allowance while the Officer at the Mount draws no Civil allowance.

The Assistant Surgeons of Bellary & Enchinopoly, and the Depot Surgeon of Maddur, are ex-officio the Civil Surgeons of those stations in the absence of a fixed Civil Medical Officer. For the period that they discharge the Civil Medical duties of those stations, they are entitled to an allowance in the case of Bellary and Maddur, to \$1.65, and in the case of Enchinopoly, to \$1.102 per mensem.

A Medical Officer in indirect charge of a Regiment or the King of a Regiment, when appointed as the Civil Surgeon of the same station, receives \$1.100 a month for the performance

Dispensary. The Garrison Surgeon draws besides his military pay and allowances, \$1.65 civil pay for charge of the Dispensary. I see not why he should get more.

10. The case of the Officer in charge of the Jail may perhaps merit more consideration.

He is an Officer Stationed at the Mount in Medical charge of a

battalion, has to come at least two miles

to visit the Jail, and

of the Civil duties in addition to his
allowance for such charge - But there
in all these cases the officers undertake
the whole Civil duty of the station and not
the charge of Comissio only -

and he has no civil
allowance -

11. Saving the four
above noted the other

allowances seems to me to fall
to be continued - There can
be no objection in giving an
Apothecary 8 or 10 Rupees
for looking after a few
Commissos. They might well
do this as a part of their
ordinary duty.

12. The Principal In-
specter General has re-
quested that if the remun-
eration be sanctioned
it may be made payable
in arrears from the date of
stoppage - but if as seems
probable it has not been
entered in the budget or
cannot

cannot be met by some
saving from it: it will
not be easy so to do -

13. On the whole I
would submit that head
money should ^{not} be allowed
in the case of the officers
named. Caumbeum and
Vellore Comissos. For those
at joining it seems more
reasonably claimable -
The principle of head
money is however bad,
and is disliked by the
officers themselves. It
would be better to give
a consolidated allowance
Say Rupees 30 per annum
so long as the numbers
are about the present
strength -

Yes - there are
many more like
Caumbeum which
is not the case in
the other instances
referred to

Yes well

 Note. This case would have fallen under para 28 Chap. XV. Civil Auditor's Manual. viz. that a Surgeon or Assistant Surgeon in receipt of consolidated Medical Staff Salary, provided he has at the same time under his care a force of the numerical strength of a complete Corps for which he draws the prescribed salary is entitled to head money in the Civil Department when attending Medical aid to Convicts and the same in charge of them, and also to other Civil Public Establishments who do not form a portion of the Medical charge for which he receives the Consolidated salary.
