There is not at present a separate transportation Ward, the building now used for that
purpose being one large room walled at the back and sides, and closed in front with an iron
railing. It was originally intended as a Workshop for the Europeans, but owing to necessity
has been used as a transportation Ward, although by no means well adapted to that purpose.

put a number of the Prisoners into that building, and that building is incon-

The present application is for an increase to the pay of the Superintendent and the Deputy Superintendent of the Penitentiary, and for an addition of three European Turnkeys to the Jail establishment.

2. There are about 380 prisoners confined at present in the Penitentiary. This is the sole Criminal Jail at the Presidency. It is also the depot for Convicts sentenced to transportation in the Mofussil and the Mysore territory, preparatory to their embarkation for the Andamans. For the charge of this large prison, the salaries of the Superintendent and his Deputy seem to be inadequate. The rates proposed, viz., Rupees 200, and Rupees 75, are approved by this Government. They are moderate and no more than would have to be offered for such responsible duties.

3. These Officers are the only Europeans on the Jail establishment, and are now severely tasked by night attendance (besides day duty) on the European prisoners, who are now 34 in number, besides six East Indians. The Commissioner of Police considers the employment of three European Turnkeys necessary for the relief of the Superintendent, and his Deputy.

4. The increase and addition proposed will entail an expense of Rupees 175 a month. Provision for this has been made in the Estimate for 1863-64 sent in to the Deputy Auditor General.
