Beant Department.

According to your letter to Government, No. 2,703, dated 17th instant, which has been referred to this Office, I have the honor to request that you will have the goodness to explain how you intend that the Order of Government, No. 1,834, dated 7th idem, should be made applicable to the "total body of the Bill."

In the Order of Government above quoted, it is directed, that in adding 10 per cent. to the actual cost of the Police supplied to Departments, "the additional charge be made in whole Rupees by charging an additional Rupee when the exact percentage yields a fraction of half or more than half a Rupee, and by omitting the fraction when it is less than half a Rupee." So far as I can see there is no difficulty in carrying out these instructions, as the money received is not required to be divided amongst individuals; but merely carried to the credit of the Department for expenditure, as the Inspector General or Superintendent may see fit.

The case however of the pay Bill of the Police itself is quite different, as the abstract contains the amount sanctioned by Government, and actually required for payment to the Members of the Police Force. Whenever therefore, a fractional part of a Rupee is omitted, some individual member or members of the Force will suffer to that extent, and similarly when a fraction is added, that fraction will be drawn in excess of the scale sanctioned by the Govern-
