Proceedings of the Madras Government, Judicial Department, 25th November 1863.

No. 218. Read the following letter from D. F. CARMICHAEL, Esq., Agent to the Governor, Vizagapatam; to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Fort Saint George, dated Vizagapatam, 13th November 1863, No. 614.

I purpose to set out for my Hill tour as usual early next month. In order to take accurate note of the distances, I would beg to be supplied with a Perambulator from the Quarter Master General's Office here. An Aneroid Barometer would also be of great use; there is a spare one lying in the Medical Stores at this place, which might be lent to me for the time.

2. I take the opportunity of mentioning that I design to travel over the Golgondah country, lying between Jeypore on the north and the Rumpah Taluq of Rajahmundry on the south. All this country is extremely rugged and inhospitable, as much so as Jeypore itself. Captain Basevi, an Officer of the Trigonometrical Survey, who lately made a reconnoisance from Jeypore to the Banks of the Godavery, has furnished me with a copy of his report. He writes, "supplies are "very scarce. In most of the villages a little rice and beri grain can be got, and the people keep "a few fowls; but there are no sheep, and scarcely any goats in the country: any large party "travelling through would be obliged to make its own Commissariat arrangements. Carriage is "not easily procurable, if at all—the people keep a good many bullocks and buffaloes, but are "averse to their being hired, and do not appear to use them themselves for purposes of carriage. "No cart of any description is to be seen in the country; indeed the roads are quite unsuited "to them." Under these circumstances it will be obvious that our travelling expenses will be enhanced in the same degree as they are in Jeypore; and I would respectfully ask that sanction be accorded to all public servants travelling in the Golgondah country west of the village of Golgondah (where the Hills commence) to draw double tentage or batta as the case may be.

No. 219. ORDER THEREON, 25th November 1863, No. 1828.

Orders will be issued in the Military Department to supply the Agent with a Perambulator from the office of the Quarter Master General of the Division, and with an Aneroid Barometer from the Medical Stores at Vizagapatam for use on his approaching tour through Jeypore and Golgondah.

2. Mr. Carmichael and his establishment will draw double tentage or batta, as the case may be, while travelling through the Golgondah country.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.
