No. 87. From J. H. GOLDIE, Esq., Civil and Sessions Judge of Tinnevelly; to J. D. SIM, Esq., Secretary to Government, Judicial Department, Fort Saint George, dated Tinnevelly, 26th September 1864, No. 599.

With reference to the order of Government in the Judicial Department, dated the 30th July 1861, No. 1150, directing Civil and Session Judges to submit lists of the furniture in their respective Court Houses, together with estimates of any additional furniture which they may consider requisite, I have the honor to submit herewith a list of the furniture now in the Civil and Sessions Court at this station, together with an estimate of the additional furniture required.

2. I take this opportunity of stating that there is no private room for the Judge in the Court House at this station, and that I conceive that the Judge should be provided with such accommodation, and that the room, when completed, should be furnished with a table and four arm chairs, and matted.

3. The room formerly occupied by the late Mooftee Sudder Ameen as his Court room might be used as the Judge's room, but it requires a punkah, and venetian doors and windows to be placed in it.

4. I have also to bring to notice that the floors of the rooms occupied by the Court servants require to be chunamed and matted; at present the rooms are bricked, and the bricks are very unevenly laid. The Record-rooms of the Court, I beg to state, also afford insufficient space for the records, and additional accommodation is, in my opinion, required for the records of the Court.

5. As your letter under reply was received before I received charge of the Court, and was only brought to my notice on the 23rd instant as having been unanswered, the reply to your letter has thus been delayed.

With reference to your Memorandum, No. 521 of the 4th instant, in the Judicial Department, requesting me to furnish a Supplemental Estimate of the cost of furnishing and matting the Judge's private room in the Court House at this station, I have the honor to forward the Supplemental Estimate therein called for.

2. I have also to state that the Civil Engineer has been requested to furnish an estimate of making venetian doors and windows for the room, the present doors and windows not admitting of any air entering the room, and that the estimate will be forwarded for the sanction of Government as soon as it has been received.
