Adverting to the remark in paragraph 2, that the employment of Convicts on Public Works is contemplated only in cases in which large gangs of not less than 500 men can be employed under the immediate direction of an Officer of the Public Works Department, and where the works are of sufficient magnitude and likely to be in progress for a sufficient time to warrant the erection of temporary prisons, Superintending Engineers will be requested to report whether there are any works of that description in progress or in contemplation in the Districts under their charge.

3. Captain Moberly will be informed, with reference to paragraph 9 of his letter to the Inspector General of Prisons, dated 4th March 1864, that it is objectionable to locate prisoners in buildings constructed of inflammable materials.
