Proceedings of the Madras Government, Judicial Department,

No. 156. Read the following

Inspector General Judicial Department

ARBUTHNOT

dated 28th October 1861, No.

With reference to the Order of Government No. 148 of 1851

I have the honor to remark that I approve of the same

for the European prisoners throughout the Presidency

As I shall be unable to give an appointment in a few

I fear that a joint report from Mr. Rohde and myself cannot now be made.

Under these circumstances, I take the liberty of submitting my reasons for

agreeing with Mr. Rohde

During my tour of inspection, I have had the opportunity of visiting

the European prisoners sentenced to hard labor at Secunderabad, Madras, and

Wellington, and

At Secunderabad and Wellington, the prisoners are Soldiers sentenced to

periods of confinement varying from a few days to six months, even a year, with

hard labor; at Ootacamund, they are Civilian prisoners; at Madras, they are principally

Sailors and Civilians with a few Soldiers.

His Excellency the Governor in Council has been very lately the

upon the sanitary state of the prisoners in the Military

Jail at Secunderabad, and has obtained personal knowledge. With General

Pringle at Wellington, and found them most healthy.

The European prisoners at Secunderabad and Wellington were, as a body, in good health, and I must

say the same of the European prisoners at Madras; but they do not get 12 oz. of

animal food daily or 84 oz. weekly, whilst at Trimulgherry, Secunderabad, and Ooty,

the allowance of animal food to each prisoner is 12 oz. less than

at Madras Jail.

I respectfully submit that although Ootacamund and Madras may have less

than the other two stations, the Presidency (paragraph 3

yet the affinity between Secunderabad and Madras is

considerable. Twenty-four oz. of meat

weekly, or 8 oz. three times a week, is the

amount supplied to every soldier sen-

tenced to hard labor in the whole of India. I attach a copy of the order.

8. I regretted that the scale of dietary laid down in M

letter had not been more precise, but with reference to the remark regarding

laid down for Europeans sentenced to simple or solitary confinement, for terms of 21

days and under, it cannot be considered a scant one, if compared with the English

or Irish dietaries for similar cases. I fancy the portion taken at midday may be

considered "dinner."

THE GOVERNOR, CALCUTTA,

1861.

The following Army General Order is published for information.

Adjutant General's Office, Simla, 10th October 1861.

The Commander-in-Chief is pleased to announce that His Excellency the Governor General

authorizes the modification noted below of the scale of dietary for the

Governor General, dated 23rd July 1849, to European Soldiers under confinement.
