N. B.—From the situation of the Market, and the varied description of the persons who frequent it, I consider it advisable that the Establishment in charge should consist of Police, and therefore do not recommend that it should be transferred to the Municipal Commissioners, or to the Collector of Madras, as I should otherwise have done.

duties, when no distinction or could be
made, without obvious and great waste of labor and confusion. A
somewhat arbitrary division, therefore must be accepted. In the case of towns,
of the entire cost only can be chargeable to Municipal Funds. In
the large Military stations abovenamed, two-thirds only are fairly chargeable to the
Municipal Funds.

P. S.—It will become necessary to establish Town Police in
several towns of each District, not now supplied with Town Police. This can only
be ascertained after receiving the replies to references to Magistrates and Police
Officers. The same principle of grant-in-aid is recognized for all.
