Proceedings of the Madras Government, Public Works Department,
23rd June 1866.

No. 550. Read the following letter from the Officiating Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 20th June 1866, No. 677:—

1. In reference to G. O. 13th instant, No. 1,863, I have the honor to report that I consider the piece of ground marked *a a a* the most undesirable, the site on the Race Course by far the best, and the plot on the Bangalore road the second best.

2. If the building be erected on either the first or the third, we shall have to provide for a very great amount of cutting and filling in; I roughly estimate the preparation of the ground at *a a a*, exclusive of the compensation, at Rupees 10,000. On the Race Course, the preparation of the site may be set down virtually at *nil*, and on the third site on the Bangalore road at several thousands of Rupees. There is a bad piece of low ground at this site, which seems to me to be little better than a small tank in the rains, and to have escaped notice hitherto.

3. However Lieutenant Brockman has been directed to prepare contours, which I shall submit, on receipt, to the Committee, with a view to enable them tangibly to weigh the merits of each plot, and arrive at a final decision.

4. Lieutenant Brockman suggested a fourth site, but I fear we have not sufficient area on it. He has, however, been directed to submit a sketch and, if necessary, contours of it also.

Order thereon, 23rd June 1866, No. 1,983.

CIVIL WORKS, No. 83.

1. Communicated to the Inspector General of Jails in continuation of the Proceedings of Government No. 1,863, dated the 13th June 1866.

2. The Government will await the receipt of a further report from the Officiating Superintending Engineer of the 4th Division on the subject of the sites for the proposed Central Jail at Vellore.
