Proceedings of the Madras Government, Judicial Department,

21st *July* 1866.

No. 207. Read the following Proceedings of Government in the Public Works Department, dated 18th July 1866, No. 2261.

Calling upon the Superintending Engineer to report, if it would not be better economy to erect a separate suitable building for the Police Magazine at Rajahmundry, than to repair and fit the present building which is reported to be ill-adapted for the purpose.

(Vide Proceedings, Public Works Department, dated 18th July 1866, Nos. 396 and 397.)

No. 208. ORDER THEREON, 21st July 1866, No. 1136.

To be recorded.

(Signed) A. J. ARBUTHNOT,

Chief Secretary.

Exd. T. Cartledge.

No. 396. Read the following letter from the Inspector General of Madras Police, to the Secretary to Government, Public Works Department, dated Kotagherry, 7th July 1866, No. 1,099:—

1. I have the honor to submit, for the consideration of Government, an estimate, amounting to Rupees 480, for putting up lightning conductors to the Magazine at Rajahmundry, accompanied by a letter No. 11 of the 12th May 1866, from the Superintending Engineer, 1st Division.

N. B.—The first estimate prepared, which Captain Ryves states was incorrect, amounted to Rupees 232.

2. Referring to the last paragraph of Captain Ryves' letter, I beg to enclose a letter from Captain Robertson, Superintendent of Police, Godavery District, in which he states that the Magazine is of the usual size, and was formerly used by the Military Detachment.

3. Rupees two hundred only are available from the District grant; but I will endeavour to transfer the balance from other Districts. I will submit report hereafter.

From the Superintendent of Police, Godavery, to the Assistant Inspector General of Police, Madras, dated Rajahmundry, 6th June 1866, No. 101.

No. 11, dated 12th May 1866, from Superintending Engineer.

With reference to the letter noted in the margin, I have the honor to state that the building used as a Magazine is that which was formerly used by the Military detachment here, that it is the only available building in the station, and, as far as I can judge, is not larger than the regular Magazines of Native Regiments, which I believe are protected by two conductors. I deemed it my duty to apply for conductors, as the safety of the Magazine is a matter which involves that of a considerable part of Rajahmundry. To build a new Magazine would be expensive, and if the ammunition is stored out of the town a building must be either built or rented, and a separate guard kept up over it.

From the Superintending Engineer, 1st Division, to the Inspector General of Police, Madras, dated Waltair, 12th May 1866, No. 11.

1. I have the honor to forward an estimate for the lightning conductor proposed to be put up for the Police Magazine at Rajahmundry.

2. If you approve of the work and the outlay for the purpose, I request you to submit it to Government in the Public Works Department for sanction.

3. The estimate countersigned by you, which was obtained from the Sub-Engineer of the Range by the Superintendent of Police, is incorrect.

4. The building appears ill-adapted for a Magazine; it covers a considerable area 40'×23', and requires at least six conductors if any.

No. 397. ORDER THEREON, 18th July 1866, No. 2,261.

CIVIL WORKS, No. 60.

As it appears from paragraph 4 of Captain Ryves's letter, dated the 12th May 1866, that the building now used as a Magazine for the Police at Rajahmundry is ill-adapted for the purpose, the Government request that he will, in communication with the Inspector General, consider and report whether it would not be better economy to erect a more suitable building on a smaller scale than to incur an outlay of Rupees 480 in putting up lightning conductors to the present Magazine.

(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 1st Division.
