No. 117. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, Fort Saint George; dated Coonoor, 23rd July 1866, No. 97.

In forwarding, for the sanction of Government, and for provision of funds, the accompanying Estimate* for alterations to the European Prison at Ootacamund, reduced to Rupees 2500 (the balance of Rupees 187 being provided from the ordinary repair funds at my disposal), I have the honor to report that the leakage complained of in the accompanying original letter† from the Session Judge is stated

Enclosures 2.
* Rupees 2500, No. 14 of 1866-67.

† No. 192, of 20th June 1866.

by the Executive Engineer to be caused by insufficient slope of the Terraced Roof, originally planned and built, as I understand, by the late Inspector General of Jails. Its re-construction, therefore, being called for, and not mere repairs, I am under the necessity of referring the estimate to Government, as it is beyond my powers of sanction, and I have no funds available for the work.

From the Session Judge in charge of the European Prison, Ootacamund, to Major FAREWELL, Executive Engineer; dated Ootacamund, 20th June 1866, No. 192.

I have the honor to inform you that the roof of the Prison over the cells and galleries, and that of the Keeper's quarters, are in a very leaky condition, and to request that you will have the goodness to cause the same to be inspected, with the view of having them put into thorough repair.

Referred to the Judicial Department.

The whole of the reserve under "Civil Buildings" has been appropriated.
