*Proceedings of the Madras Government; Public Works Department,
6th November 1866.*

No. 108. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Waltair, 22nd August 1866, No. 153 :—

1. Referring to G. O. No. 2,261, of the 18th July 1866, I have the honor to report, that I pointed out to the Inspector General of Police that the Magazine at Rajahmundry was a very low roofed building, well protected by trees and loftier buildings, &c., around it, and therefore quite unlikely to attract any lightning.

2. It seemed to me, therefore, to be unnecessary to expend any considerable amount in putting up any elaborate system of conductors; but to afford additional security, I proposed transferring one of the single conductors from the Sapper Barracks at Dowlaishwarum now being dismantled.

3. To this the Inspector General has assented. If the Government do not object, I beg permission to carry out this plan, which will cost a mere trifle.

No. 109. ORDER THEREON, 6th November 1866, No. 3,533.

CIVIL WORKS, No. 24.

The Government have no objection to the proposal which is made in this letter. The plan and estimate for putting up a single conductor should, however, be submitted for approval, unless the work is likely to cost less than Rs. 100 in which case the Superintending Engineer is competent to order its immediate execution.
