Not to be folded or roughly handled

Proceedings of the Madras Government, Judicial Department, 17th May 1866.

Read the following papers :—

No. 164. From the Officiating Principal Inspector General, Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 17th April 1866, No. 142.

I have the honor to bring to the notice of Government that the Zillah Surgeon, Rajahmundry, reports that 2nd Dresser C. Soobaroyaloo, No. 520, doing duty with the Central Jail at that station, has been refused his pay by the Accountant General from January last.

2. I forwarded this report to the Accountant General, under date the 21st ultimo, begging to know the reason why the Dresser's pay was refused.

3. That Officer states that "the pay of a Dresser for the Central Jail at Rajahmundry was refused, because there is no authority, either in the Order of Government, No. 1639, dated 16th November 1865, sanctioning the Jail establishment, or "in any other communication to this Department, directing the employment of such "a servant."

4. I have, therefore, the honor to solicit that Government may be pleased to sanction the disbursement of the Dresser's salary from January last.

5. I have also the honor to request that the establishment of one 1st Dresser and one 2nd Dresser may be sanctioned for each of the Central Jails noted in the margin. This provision has been made in the list of establishments printed in the Proceedings of Government, Military Department, No. 1019, of the 17th ultimo, on the re-organization of the Subordinate Medical Department.

Coimbatore.
Rajahmundry.
Salem.
Vellore.

6. It may here be stated that 2nd Dresser Soobaroyaloo stands attached to the Police at Rajahmundry, and is temporarily doing duty with the Central Jail; while 2nd Dresser A. Ramasawmy, No. 368, attached to the District Jail, continues to perform the duties of the Police Hospital in connection with his own; so that it is not very clear why the Accountant General could not pass the Pay abstract of the former Dresser, as there is really no extra charge incurred by this temporary arrangement.

Referred to the Inspector General of Jails, for his remarks.

FORT SAINT GEORGE,
21*st April* 1866.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

No. 165. From the Inspector General of Jails, to the Chief Secretary to Government, Fort Saint George; dated Madras, 24th April 1866, No. 1063.

I have the honor to return the letter of the Principal Inspector General, Medical Department, No. 142, dated 17th instant, and to state that the appointment of one first and one second Dresser to the Central Jails at Coimbatore, Rajahmundry, and Salem appears to be necessary, but no Establishment is required for Vellore at present, the erection of a Jail at that station being in abeyance.

2. It seems that, on the 3rd October last, Dr. Croudace, then in Medical charge at Rajahmundry, reported to the Deputy Inspector General of Hospitals,

Northern Division, that, owing to the distance between the two Jails, and for other reasons, it was not advisable to treat the sick of the Central Jail at the District Jail, upon which the Deputy Inspector General directed (7th October 1865) Dr. Croudace to set aside part of the Central Jail for their accommodation until a proper Hospital should be provided, and he, at the same time, intimated that 2nd Dresser Soobaroyaloo had been detached for duty at the jail. On the 18th October, two days before I gave over charge to Mr. Rohde, I received a Memorandum informing me of the intended location of the sick of the Central Jail as abovementioned, but the appointment of the Dresser was not communicated, and it was not until very lately that I became aware of the fact.

3. As far as I am able to ascertain, there has not been any uniform manner in which the services of Medical Subordinates have been procured for Jails, and it would be well to establish some rule on the subject. The Officer in Medical charge knows what establishment he requires, and the Head of his Department is the person best fitted to judge of the propriety of the requisition; but the Inspector General of Jails ought to be made acquainted with the fact of such requisitions, and with the orders passed thereon.

No. 166. ORDER THEREON, 17th May 1866, No. 751.

Ordered that the foregoing letter from the Inspector General of Jails be communicated to the Officiating Principal Inspector General in the Medical Department, with reference to his letter of the 17th April.

2. The Right Honorable the Governor in Council is pleased to sanction the entertainment of one 1st and one 2nd Dresser at each of the Central Jails marginally noted. The Accountant General will pass, from 1st January last, the salary due to 2nd Dresser C. Soobaroyaloo, who, it is understood, has been attached from that date to the Central Jail at Rajahmundry.

Coimbatore.
Rajahmundry.
Salem.

3. In future, all applications regarding the employment of Medical Subordinates in Jails will be submitted by the Officer in Medical charge to the Inspector General of Jails, who will forward the application, together with an expression of his opinion, to the Principal Inspector General, Medical Department. The matter will then, according to the circumstances of the case, be disposed of by that Officer, or referred for the orders of Government.

(True Extract).

Chief Secretary.

To the Officiating Principal Inspector General, Medical Department.
" Inspector General of Jails.
" Accountant General.

Ed. J. H. Burns.

MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

Memorandum from the Adjutant General..... Here enter 16th December 1865, No. 448.
Report from the Controller of Mily. Accounts.... " 28th February 1866, D.

Memorandum from the Adjutant General, Fort Saint George, 16th December 1865, No. 448; to the Secretary to Government, Military Department.

The Commander-in-Chief has the honor to submit,* for the consideration of Government, the within letter from the Principal Inspector General Medical Department, with draft G. O., for the re-organization of the Subordinate Medical Department.

* *With reference to Proceedings of Government, 31st October 1865, No. 4056, and previous correspondence.*

2. His Excellency is of opinion, that the rates of pay proposed for the different grades are very moderate, considering the importance of the duties for which the subordinates must necessarily qualify themselves, and bearing in mind that such qualifications are only to be looked for in men of ability, and whose intelligence would ensure them similar salaries in other professions.

3. The Commander-in-Chief also concurs with Mr. Cole, that it would be inexpedient to have separate subordinate Establishments for Civil and Military duties.

From the Principal Inspector General Medical Department, Fort Saint George, 24th November 1865, No. 366; to the Adjutant General.

I have the honor to forward, for the approval of His Excellency the Commander-in-Chief, the accompanying draft G. O., relating to the re-organization of the Subordinate Medical Department.

2. His Excellency will perceive that no attempt has been made to establish a complete separation of the Military and Civil employees of this class. On economical grounds, there can be no doubt that a single establishment is the best, and in practice, I am led to believe, that it would be very expensive and unsatisfactory to have a large number of Medical Subordinates, who were not liable to Military Service.

3. It will be observed that a considerable addition is proposed to the present rates of pay of the Apothecary and Hospital Assistant grades; but no more has been proposed than is considered really necessary to preserve the efficiency of the Department. I believe that the proposed scale is somewhat below that which has been considered necessary by the Supreme Government, should this be so, I venture to hope that the rates adopted by the Government of India, may be made applicable to the three Presidencies.

4. I have ventured to recommend in the draft G. O. "a scale of unemployed pay" for Medical Subordinates. The reason for so doing is to remove from Government servants of this class inducements to waste their time on leave, or occupying more time than the regulated periods allowed for marching from station to station. Under present regulations, a Medical Subordinate draws full effective pay for a period of two years when on general leave or sick certificate. The practice of providing an unemployed allowances is in accordance with that recently introduced in regard to the Commissioned ranks of the Medical Service.

5. The rules for the promotion of Medical Subordinates from one grade to another, and for the entertainment of candidates, do not differ materially from those at present in force. The stipends are those already sanctioned by Government.

6. I trust that, if the draft Order meets with approval and sanction, the condition of the Subordinate Medical Establishment may be materially improved, by its promulgation.

GENERAL ORDER.

1. His Excellency the Governor in Council having been pleased to direct that the Subordinate Medical Establishment of this Presidency shall be remodelled; the following regulations are substituted for those heretofore in force.

2. On and after the 1st day of January 1866, the grades of the Department shall be classified as follows :—

(*A.*) *Hospital Assistant.*

1st Class. 2nd do. 3rd do. } Ranking as Non-Commissioned Officers, and for employment in Military and Civil duties.

(*B.*) *Apothecary.*

1st Class. 2nd do. 3rd do. } Ranking as Warrant Officers, and for employment in Military and Civil duties.

(*C.*) *Sub-Assistant Surgeon.*

1st Class. } After 14 years' service.
2nd do. } Do. 7 do.
3rd do. } Under 7 do.

3. The numbers and rates of pay of the several grades will be fixed according to the following table :—

Scale of proposed pay.

	Sub-Assistant Surgeons.			Apothecaries.				Hospital Assistants.		
	1st class.	2nd class.	3rd class.	Senior.	1st class.	2nd class.	3rd class.	1st class.	2nd class.	3rd class.
	No.	No.	No.	No.	No.	No.	No.	No.	No.	No.
	24			5	38	34	102	100	171	248
Under 7 years...	.....	.....	125	.....	.....	.....	.....	.....	.....	.....
Above 7 do.	.....	210	.....	.....	.....	.....	.....	.....	.....	.....

On promotion and below 5 years' service.....	.....	.....	.....	250	175	125	75	40	30	20
"Unemployed" allowance*...	250	160	100	200	150	100	60	35	25	15
Above 5 years' service...	.....	.....	.....	.....	200	150	100	45	35	25
"Unemployed" allowance*... ...	.....	.....	.....	.....	175	125	75	40	30	20

**N. B.*—Privilege leave will not subject the taker to reduction to "unemployed" pay, but when general leave, furlough, or leave on sick certificate is taken, "unemployed pay" only will be granted.

4. The establishment for European and Native Corps respectively, is fixed according to the following scale :—

European Artillery, Cavalry or Infantry.
1 2nd Class Apothecary.
1 3rd do. do.
1 3rd Class Hospital Assistant.

Native Cavalry and Infantry.
1 1st Class Hospital Assistant.
1 3rd do. do.

Field Batteries of Artillery or Details of Infantry below the strength of a wing.
1 3rd class Apothecary.

5. Supernumeraries of any grade will continue to be borne upon the strength of the establishment until they can be absorbed; and all promotions, necessary to complete the establishment of the several grades, as at present fixed, to be made from the date of this Order.

6. On the transfer of the economical control of British Hospitals to Administrative Officers of the British Medical Department, Medical Subordinates according to the scale below will be placed at the disposal of the Principal Medical Officer for employment with British Troops. Temporary or permanent vacancies in the establishment for British Troops, will be filled up as they occur, from the strength of the general establishment on application to the Principal Inspector General of the Medical Department.

7. The strength of the various grades being now fixed with reference to the actual wants of the Madras Presidency alone, it will not be practicable hereafter to comply with the requisitions of other Governments and Provinces to supply Medical Subordinates. The Governments noted in the margin, may arrange for the education of subordinates at the Madras Medical College, and General Hospital, subject to the rules and regulations in force, with regard to candidates educated for the public service, the several Governments paying all expenses in connection with such students.

Mysore.
Travancere.
Straits' Settlements.
Pegu.
Central Provinces.
Resident of Hyderabad.

8. Medical Subordinates now employed under other Governments, will not be withdrawn so long as they may be supernumerary to the revised establishment, but will be applied for, only when absolutely required to supply vacancies under the Madras Government.

9. Sub-Assistant Surgeons are intended to be employed in the Civil and Vaccine Departments.

10. All subordinates of the Apothecary and Hospital Assistant grades will be employed in Military or Civil duties at the discretion of the Principal Inspector General Medical Department, and by whom all postings and removals will be submitted to His Excellency the Commander-in-Chief for sanction.

11. All members of the subordinate Medical Department who have been educated at the Government expense, will be required to serve for a period of seven years, calculated from the date of being passed for the public service, before they can claim their discharge. Those who wish to resign before the completion of the term, and who may receive permission to do so, will be required to refund to Government the whole amount of stipend received during their education in Hospitals and at the Medical College. (This regulation does not apply to the holders of Government or other scholarships in the Medical College.)

12. All promotions in succession to vacancies, will, as a rule, be made according to seniority.

13. No promotions will be made in the several grades from one class to another, until the candidates have been examined by a Board of Medical Officers, and found to possess a competent knowledge of their duties. The Principal Inspector General will arrange for the periodical examination of subordinates who may be near to their promotion.

14. It shall be competent for the head of the Medical Department to recommend for promotion, irrespective of seniority in the list, any Medical Subordinate who, from his distinguished good conduct, shall be considered worthy of selection for advancement to a higher class in his grade.

15. Promotion from one *grade* to another, namely from that of Hospital Assistant to Apothecary, and from Apothecary to Sub-Assistant Surgeon, may be allowed in accordance with the following rules :—

(*a.*) Hospital Assistants desirous of qualifying for the grade of Apothecaries must have completed five years of actual service, calculated from the date of passing out of the Medical College.

(*b.*) They will be required to pass such an examination, as may satisfactorily prove their ability to profit by attendance, upon the course of lectures given in the 2nd Department of the Medical College.

(*c.*) They must attend the courses of the Medical College for a further period of twelve months, and pass the usual examination before the Government Board of Examiners, for the Apothecary grade.

(*d.*) The number of Hospital Assistants, attending the Medical College with the view to qualify for the Apothecary grade, will be limited to five per annum.

16. Candidates for promotion from the grade of Apothecary to that of Sub-Assistant Surgeon will be required to show :—

(*a.*) That they have borne a good character for sobriety, zeal in the performance of duty, and general intelligence.

(*b.*) That they have served in the Apothecary grade or Apothecaries and Hospital Assistants' grades combined, (exclusive of the period of attendance at the Medical College,) for a period of 10 years.

(*c.*) That they are in good health and physically fit for service.

(*d.*) Candidates who can produce certificates and testimonials in accordance with the foregoing paragraphs, will be eligible to compete for vacant appointments in the Sub-Assistant Surgeons' grade, provided that the proportion of Sub-Assistant Surgeons so selected does not exceed *two-thirds* of the authorised establishment. The remaining one third of such appointments, will be reserved for graduates of the Madras Medical College, Licentiates in Medicine and Surgery of the Madras University, or persons holding Medical and Surgical degrees or Licences from British Universities or Colleges.

(*e.*) Apothecaries who seek to enter the Sub-Assistant Surgeons' grade, will also have to pass an examination in Medicine, Surgery and Hygiene, such as to test their thorough practical acquaintance with those subjects. The examination to be conducted under instructions from the Principal Inspector General, by the Principal and two Professors of the Medical College.

17. Members of the Subordinate Medical Establishment who have been attested for Military Service, and who have been promoted to the Sub-Assistant Surgeons' grade, will be allowed to count the whole of their previous service for pension, and when retiring on account of ill health, they will have the option of abiding by the Military Regulations for Invalid Pension, as applicable to Warrant Officers of the class they would have attained had they remained in the Apothecary grade.

18. The promotion of Apothecaries to the grade of Sub-Assistant Surgeon, will not deprive their families of the advantages formerly derived by Warrant Officers from Lord Clive's Fund.

19. Sub-Assistant Surgeons who have not been attested for Military Service, will be subjected to the regulations in force for Uncovenanted Officers of the Government, in regard to leave of absence, and pension.

20. The Native Surgeons now upon the establishment will be classified as "Sub-Assistant and Surgeons" according to their standing in the service. This classification however will not affect their present designation or rates of pay, which are to be continued as before.

21. With the view of furnishing the means of professional education for the various grades of Medical Subordinates, Military and Civil, it is ordered, that instruction shall be given in the Medical College, in the following departments and classes.

22 1*st*—*The Senior Department*, in which young men who have received a fair general education, and who desire to obtain the appointment of Sub-Assistant Surgeons without passing through the grade of Hospital Assistant or Apothecary, or to qualify for the Diploma of the Medical College, or a degree in Medicine at the Madras University or elsewhere.

2nd. Candidates for admission to the Senior Department must have passed either the Matriculation Examination in the Madras University, obtaining one-third of the marks assigned in English, or the first Examination in Arts in the Madras, or some other recognised University.

3rd. Five scholarships of the value of 20 Rupees each per mensem will be opened to Pupils in this Department of the College. Each scholarship will be tenable for five years, the prescribed period of instruction, subject to forfeiture for misconduct, or in the event of the holder failing to show satisfactory progress at the annual examination.

4th. Candidates who fail in obtaining scholarships, who have passed the prescribed examination, may be admitted as free students, and at the conclusion of the course, the appointment to vacancies in the grade of Sub-Assistant Surgeon shall be determined by the result of the final examination, the appointment being conferred on the most proficient students, whether free students or scholarship holders.

23. *Second Department.* The second Department of the College shall comprise all the students qualifying for the grade of Apothecary.

24. Candidates for this Department are called "*Paid Medical Candidates*," and they must not be below 15 nor above 18 years of age at the date of their enlistment.

25. Candidates must produce certificates of parentage and of age, with testimonials as to character and respectability. They must also furnish a certificate of physical fitness for Military Service, signed by a Commissioned Medical Officer of the British or Indian Establishment.

26. Candidates will be required to undergo a preliminary examination in the following subjects:—

(*a*) In English, a fair knowledge of which is required, to be tested by writing to dictation, and by an examination in grammar generally.

(*b*) In Arithmetic, an acquaintance with simple arithmetic, and with vulgar and decimal fractions will be required.

(*c.*) In vernaculars, candidates are expected to possess a fair colloquial acquaintance with Hindoostani, Tamil or Teloogoo.

(*d.*) Applicants for admission to this examination must send the prescribed certificates to the Secretary Principal Inspector General.

(*e.*) The examination may be held in any Civil or Military Station of the Madras Presidency or of British Burmah or Straits' settlements, where there may be a Medical Officer to Superintend the examination.

(*f.*) The examination will be conducted by means of printed papers prepared by the Principal Inspector General, in communication with the Director of Public Instruction.

(*g.*) At Madras the examination will be conducted at the Medical College, by a Medical Officer appointed by the Principal Inspector General.

(*h.*) In the Provinces, the examination will be conducted by the Civil Surgeon of the District, or by the Senior Medical Officer of the station, if there be more than one, who will also take steps to test the colloquial knowledge of Hindoostani, Tamil or Teloogoo, possessed by the candidates.

27. Candidates will be selected for the Department according to their attainments, as determined by the valuation affixed to their papers, by the Educational Department, and they will be attached to Hospitals for two years, if the exigencies of the service permit on the following rates of pay :—

1*st*. Year Rupees 8 per mensem.
2*nd*. Do. do 10. do.

28. In forwarding their applications, candidates will specify the Hospital or Dispensary, to which they desire to be attached.

29. Before being drafted into the Medical College, candidates will be required to pass a second examination, intended to test their knowledge of Hospital duties, of the preparation and doses of medicines, &c. This second examination will be conducted at the several stations under instructions to be issued by the Principal Inspector General Medical Department.

30. The following rates of stipend will be granted to lads admitted into the Medical College for the second Department.

3rd.	Class Student, Medical College,		Rupees	12	per mensem.
2nd.	Do.	do	,,	16	do.
1st.	Do.	do	,,	20	do.
Passed Medical Candidate			,,	30	do.

31. *Junior Department.* The Junior Department of the College comprises all the students qualifying for the grade of Hospital Assistant.

32. Candidates for this Department are called "paid Medical Pupils;" they must not be below 15 nor above 19 years of age, and they must produce testimonials as to character, and a certificate of physical fitness for Military Service, signed by a Commissioned Medical Officer of the British or of the Indian Establishment.

33. Preference will be given, *cæteris paribus*, to the sons of the Native Commissioned and Non-Commissioned Officers and Soldiers.

34. Candidates will be required to undergo an examination in the following subjects, as laid down in paragraph 41 of Medical Code, Section VI.

(A.) In English, a fair knowledge of which is required, to be tested by writing to dictation, and explaining the meaning of words.

(B.) In Arithmetic, an acquaintance with the four simple and compound rules, and rule of three.

(C.) In Vernaculars, reading and writing in one at least of the following, *viz.*

Hindoostani.
Tamil.
Teloogoo.

(D.) Applications for admission to this examination (which may be held in any Civil or Military Station of the Madras Presidency or of British Burmah and Straits' Settlements where there is a Medical Officer to superintend the Candidates) with prescribed certificates must be sent to the Secretary to Principal Inspector General.

35. Candidates will be selected according to their attainments, as determined by the valuation affixed to their papers by the Examiners, and attached for a period not exceeding two years, to Military or Civil Hospitals; at stations where their parents may be residing, or to which the parents may desire them to be sent.

The rates of pay will be as follows.
1st year Rupees 5 per mensem.
2nd ,, ,, 6 ,,

36. Before being drafted into the Medical College, they will be required to pass a second examination intended to test their knowledge of English, of Hospital duties, and of the preparation and doses of medicines, &c. This examination will be conducted at the several stations under instructions to be issued by the Principal Inspector General, Medical Department.

37. The following rates of stipend will be granted to lads admitted into the Medical College for the Junior Department.

2nd Class Student Medical College, Rupees 7 per mensem.
1st do. ,, 10 do.

38. In all other respects the rules for "paid candidates" are applicable also to candidates of this Department.

Rules for paid Medical Candidates and paid Medical Pupils while attached to Hospitals, previous to entering the Medical College.

39. All paid Candidates and Medical Pupils shall be attached when the exigencies of the public service permit, to Civil or Military Hospitals or Public Dispensaries, for a period of two years.

40. The distribution of paid candidates and pupils will be arranged on the recommendation of the Principal Inspector General, by His Excellency the Commander-in-Chief.

41. The object in view in placing paid candidates and pupils to do duty in Hospitals as a preliminary to their attendance at the Medical College, is to give them an insight into the practical duties which the Government expects of Medical Subordinates.

42. Medical Officers of whatever branch of the service the candidates or pupils may be placed under, are enjoined to see that the lads are taught the reading of prescriptions, the uses, doses, and nature of Pharmacopœal preparations, the mode of dispensing medicines, with accuracy and

neatness, and the preparations and application of minor surgical appliances, such as blisters, bandages, &., also the arts of cupping, leeching, vaccination, &. With this view the candidates and pupils will be daily instructed and supervised by the Senior Medical Subordinate present.

43. The Medical Officer will take care that no candidate or pupil is entrusted with the sole preparation of medicines, until he has been examined by himself as to his knowledge of the uses and doses of drugs, and has been proved competent to the task of dispensing.

44. It is expected that candidates and pupils shall be further instructed in the rules and regulations applicable to the management of the Hospitals they may be doing duty in, the nature and number of the various diets in use for the sick, and in the preparation of the various returns, indents, and tabular statements pertaining to the Department.

45. Paid Medical Candidates and Pupils will be required to attend Hospital neatly and cleanly dressed. During the day or a portion of the day, the native pupils will be required to attend at an English school to prosecute their general education for such time as the Medical Officer may deem fit, and while so engaged will not be employed on night duty. Paid Medical Pupils will be required to defray their own school expenses out of the stipends allowed them. The Medical Officer will specify the name of the school in his monthly report.

46. Paid candidates will attend Hospital in time for the morning and evening visits of the Medical Officer. During the day they will perform such duties as may be assigned to them, and if required they will also be put on a roster for night duty. It is to be understood, however, that the detailing of a paid candidate for night duty is not to absolve the Medical Subordinates of the Corps or Hospital from attendance.

47. Elementary text books will be provided for the Hospitals to which paid candidates and pupils may be attached. Medical Officers will be held responsible that the books are taken due care of and studied by the candidates. For this purpose it is desirable that Medical Officers establish monthly examinations of the candidates in such subjects as may have been read or studied in the previous period.

48. A separate room shall, when convenient, be set apart in each Hospital for the use of the paid candidates and pupils.

49. A monthly report on the progress of candidates and pupils is to be made in the subjoined form, through the Division to the Office of the Principal Inspector General. Candidates and pupils are warned that, in the event of the reports of their superiors being of an unsatisfactory nature, showing inattention to duties, or inaptitude for improvement, they will be subjected to dismissal or such other punishment as the nature of the offence may merit.

50. An annual examination will be conducted at the several stations under instructions to be issued by the Principal Inspector General Medical Department, with the view of testing the knowledge of paid candidates, of Hospital duties and of the preparation and doses of medicines, &c., and the progress made by Native Pupils in the study of English. The result of this examination will determine the order of merit for admission into the Medical College. Such lads as may be considered unlikely to make efficient public servants, will be discharged.

51. Paid candidates of East Indian or European parentage are prohibited from marrying, until they have passed through the Medical College. Native pupils must obtain the previous sanction of the Principal Inspector General Medical Department.

52. Paid candidates and pupils will be enlisted under Article I, Act 29 of 1861, *i. e.*, the Articles of War for the Native Army, agreeably to G. O. G., No. 297, dated 18th August 1865, and will be subjected in all matters of discipline to the Articles of War.

REPORT on a paid Medical Candidate (or Pupil) attached to the Hospital of
at for the month of 18 .

Name.	General character for sobriety and zeal in the performance of duty.	General state of health.	Whether progress in general and professional attainments is satisfactory.	Name of the school the the Pupil has attended during the month.	Remarks.

With Report from the Controller of Military Accounts, 28th February 1866, *D.*

ORDER, No. 1019, 17th March 1866.

With the Adjutant General's memorandum above recorded, His Excellency the Commander-in-Chief submits a letter from the Principal Inspector General Medical Department, with draft of a G. O. for the re-organization of the Subordinate Medical Department.

2. This subject came originally under the consideration of Government in the year 1859; and has intermediately received the careful attention of the Head of the Department, His Excellency the Commander-in-Chief, the Government and Her Majesty's Secretary of State for India.

3. The correspondence now before Government, as well as the reports of the Commander-in-Chief and the Principal Inspector General Medical Department, recorded in Proceedings of Government, No. 4056, dated 31st October 1865, in connexion with the proposed organization of a separate Subordinate Medical Establishment for the British Service, exhibit a material change of views on the part of those officers, on the leading features of the original scheme for the re-organization of the Subordinate Medical Establishment, *viz., the separation of the Civil from the Military branch.*

4. On this point the Committee, appointed in 1859 to consider and report on the subject, and the Government, chiefly disagreed—the then Commander-in-Chief, the Principal Inspector General Medical Department and the Secretary of State being of opinion with the Committee, that the establishments for the Civil and Military services should be kept separate and distinct.

No. 3757, dated 24th October 1859.

5. The scheme now proposed contemplates one general establishment for all purposes, and is thus in harmony with the views of Government on this point.

6. In most other respects also it agrees with the scheme approved by Government.

7. Financially, however, the proposed measures go beyond the intentions of Government; but His Excellency in Council admits the necessity for improving the rates of pay of the members of the Establishment under consideration, and thereby rendering the service more attractive than it is at present.

8. The scheme contemplates—

3 Classes of Hospital Assistants (in lieu of Native Dressers) to be open to *all* classes, preference being given *cæteris paribus* to the sons of Native Commissioned Officers and Soldiers.

3 Classes of Apothecary, in place of the present Apothecary, 2nd Apothecary and Assistant Apothecary grades.

5 Senior Apothecaries as at present, and

3 Classes of Sub-Assistant Surgeon (into which the present Native Surgeoncies are to be merged) for employment in the Civil and Vaccine Departments.

9. It is proposed to employ Apothecaries and Hospital Assistants at the discretion of the Principal Inspector General Medical Department, on Military or Civil duties.

10. The establishment and salaries proposed are as follows:—

24 Sub-Assistant Surgeons on Rupees 125, 210 and 300, according to class.

5	Senior Apothecaries	Rupees	250.		
38	1st Class	do.	„	175	Above five years. 200 Rupees.
34	2nd „	do.	„	125	150 „
102	3rd „	do.	„	75	100 „
100	1st „	Hospital Assistants	Rs.	40	45 „
171	2nd „	do.	„	30	35 „
248	3rd „	do.	„	20	25 „

11. The following is the proposed distribution of the Apothecaries and Hospital Assistants:—

	Mily. Dept.	Civil Dept.	Reserve.
Senior and 1st Class Apothecaries.....	27	11	5
„ 2nd „ do.	26	4	4
„ 3rd „ do.	66	23	13
1st „ Hospital Assistants	55	32	13
2nd „ do. ...	22	127	22
3rd „ do. ...	71	145	32

12. An "unemployed" rate of pay is proposed for men on leave, and while travelling. The practice obtains in the Commissioned ranks of the Medical Service.

13. The cost of the present establishment is Rupees 4,80,384 per annum; that of the proposed establishment, would be Rupees 5,74,920, or Rupees 94,536 in excess. The reduction of the European Force by one Regiment of Infantry and four Field Batteries, will reduce the excess to Rupees 87,136.

14. The proposed reserve of 15 per cent. of the whole general establishment appears to the Governor in Council to be in excess of probable want, considering the numbers* attached to the Deputy Inspector General who are available for detachment duty as well as those on leave.

*8	1st	*Class Apothecaries.*
8	2nd	„ „
11	3rd	„ „
10	1st	„ *Hospital Assistants.*

15. The Controller of Military Accounts suggests that the amount of pay proper included, in the consolidated salaries, now proposed should be declared to regulate the receipts of individuals under circumstances not entitling them to Indian allowances. He proposes the present rates *viz*:—

Senior Apothecary	Rupees	75	0	0
First Class „	„	50	0	0
Second „ „	„	30	7	0
Third „ „	„	25	0	0

16. The Governor in Council approves generally of the foregoing propositions, and resolves to recommend the scheme for the favorable consideration of His Excellency the Governor General in Council, with the intimation that the Government are of opinion that the reserve should be fixed at 10 per cent.

17. These Proceedings will also be communicated to the Educational Department, with reference to the portion of the scheme requiring to be considered in that Department—any observations on it, which may be furnished to the Military Department will, if necessary, be forwarded to the Government of India.
