*Proceedings of the Madras Government, Public Works Department,
8th June 1866.*

No. 165. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 23rd May 1866, No. 129 :—

1. As directed in G. O. No. 1,566, dated 16th instant, I have the honor to enclose revised plans and estimates for the works, in connection with the Jail at Trichinopoly, which are approved by the Inspector General of Jails.

2. With regard to the estimate for extending the main drain to the Wyacondan channel, adverted to in paragraph 4 of the Inspector General's letter, I have requested the Superintendent of the Jail to favor me at an early date with an expression of the views of the Committee, as to the necessity or expediency of extending the drain.

3. The Inspector General makes no observation relative to the Dead-house, the estimate for it is therefore included in that now submitted.

4. With regard to the delay in the submission of the plans and estimates, I have the honor to call your attention to letter No. 1,517, from which you will

observe that until the receipt of the telegraphic message from you on the subject, I supposed that the plans and estimates had been forwarded by the Committee direct to Government, and I only learned afterwards that the Committee had only submitted an approximate estimate of the amounts which would probably be required to carry out their suggestions, on the supposition, apparently, that when the approval of Government had been obtained, detailed estimates would be called for; the estimates were received on the 22nd January, and after having been examined and copied, with the plans, &c., they were retained in the Office pending the receipt, from the Committee at Tranquebar, of the plan and estimate of the Solitary cells required there, in order that the whole of the Reports of the Committees on the Jails in the Division might be laid before Government together. This I explained in paragraph 3 of letter No. 2,124, dated 5th April, where I mentioned that on the previous day only the plan and estimate of the Solitary cells had reached me.

No. 166. ORDER THEREON, 8th June 1866, No. 1,809.

CIVIL WORKS, No. 29.

1. The Government sanction the estimate of Rupees 4,750 for the improvements proposed to be carried out to the Jail at Trichinopoly. The amount will be provided from the Reserve under "Civil Buildings."

2. The Government will await a further report from the Superintending Engineer with regard to the extension of the main drain to the Wyacondan channel.
