Proceedings of the Madras Government, Judicial Department,
26th June 1867.

No. 251. Read the following letter from the Inspector General of Police, to the Chief Secretary to Government, Fort Saint George; dated Madras, 10th June 1867, No. 959.

General Department.

In continuation of my letter as per margin, I have the honor to submit a list of Police huts and Station-houses which have been built during the past year for Police in different Districts, either entirely or in part, at the cost of private individuals.

2. The abstract in the margin shows the net result in each of eight Districts in which the Police Officers and Magistrates have encouraged this private enterprise. The total for the whole Presidency was 33 Station-houses (generally inexpensive and yet convenient) and 108 huts, constructed at a cost of Rupees 11,932, of which Rupees 10,522, or 88.2 per cent. were contributed by private individuals.

3. It will be observed that the largest contributions have been in Tinnevely (easily the first), and Bellary. This I attribute to the anxious attention of Lieutenant Porteous and Captain Hicks to this matter. Both, but especially the former, have been most successful, and have been generally seconded by the Sub-Magistracy with the considerate permission of the Magistrate.

4. There is no doubt that much can be done in most Districts with the countenance of the Magistrate and aid of Sub-Magistrates, in inducing the people who benefit by the presence of the Police to come forward to provide suitable shelter for them and a fairly convenient place for a Station-house. Indeed in several Districts, Bellary and the like, offers are frequently made to build Station-houses and huts, if it will induce Officers either to place a new station in the village of the applicants or to remove an already established station thither.

5. The Districts in which nothing has been done in this respect are shewn marginally. I must express regret that District Officers have done little to encourage private aid.

6. I request the permission of Government to pay the regulated rent of all huts built by private individuals—the same principle should apply to Municipalities—to the persons who build them, or to apply the rent to any eligible and charitable purposes indicated by them.

7. The attention of Superintendents will be specially drawn to this important matter, and it is hoped that Magistrates will readily lend their aid. I think the principle of encouraging private individuals and communities to provide shelter, &c., for the Police is a right one. It is thoroughly understood in England; and in Ireland I believe that a large number of the constabulary barracks at out-posts throughout the country are built by individuals who wish to have stations near them. They construct the necessary buildings according to a plan supplied by the constabulary authorities, and the Government take a twenty-one years' lease of the same.
