1. The Report above recorded will be transferred to the Judicial Department.

2. The net expenditure on the Central Jail at Rajahmundry during May 1867 was Rupees 2,911 on the items marginally noted.

3. The Government consider this highly unsatisfactory, and are displeased to find that, notwithstanding the repeated orders which have been issued for the more rapid prosecution of the building of the Jail, no effort appears to have been made to hasten its completion. The Superintending Engineer's attention will be once more called to the subject, and Captain Beckley will explain why the estimate which the late Acting Superintending Engineer promised to lay before Government early in January last has not yet been submitted.
