Figure 1 is a line graph showing the relationship between the percentage of total effort and the percentage of total catch for five fish species. The x-axis represents the 'Percentage of total effort' from 0 to 100, and the y-axis represents the 'Percentage of total catch' from 0 to 100. The species are: Yellow perch, Rock bass, White perch, Striped bass, and Rockfish. Yellow perch shows a high catch percentage for low effort, while Rockfish shows a high catch percentage for high effort.
