*Proceedings of the Madras Government, Judicial Department,
1st May 1867.*

No. 1. Read the following Proceedings of Government in the Public Works Department, dated 16th April 1867, No. 1173.

Passing orders for the payment from
Estimates of the cost of Police Guards } (Vide Proceedings, Public Works Dept.,
and Convicts employed on Public Works. } dated 16th April 1867, Nos. 349—351.)

No. 2. ORDER THEREON, 1st May 1867, No. 694.

Resolved that the foregoing Proceedings be communicated to the Inspectors General of Police and Jails.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

To the Inspector General of Police.
" " of Jails.

*Proceedings of the Madras Government, Public Works Department,
5th September 1864.*

No. 85. Read the following Circular from Colonel R. STRACHEY, R. E., Secretary to the Government of India, Public Works Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 16th July 1864, No. 47 :—

Abolition of Cash payments for Police Guards.

The following copy of Financial Department Resolution, No. 3,496, dated 31st July 1863, abolishing Cash payments for Police Guards by Departments employing them, is circulated for information and guidance.

(Signed) R. STRACHEY, Colonel, R. E.,
Secy. to the Govt. of India.

(Signed) E. C. S. WILLIAMS, Captain, R. E.,
Under Secretary to the Government of India.

*Extract from the Proceedings of the Government of India, in the Financial Department,
No. 3,496, dated 31st July 1863.*

Read the following papers regarding the revision of the Oudh Police, and the mode of estimating and charging for that portion of the expense of the Police, which is incurred for the service of other Departments.

Home Department's endorsements, Nos. 1,939, 2,315, and 2,544, dated 24th March, 8th April, and 18th April 1863.

Letters [from the Inspector General of Police in India, Nos. 27 and 45, dated 12th and 19th February 1863, and a further letter dated 7th May 1863.

RESOLUTION.—The point referred for the consideration of the Financial Department by the Home Department's Resolution of the 24th March 1863, is the mode of estimating and charging for that portion of the expense of the Police, which is incurred for the service of other Departments.

2. At present the various Departments are required to pay in cash for the Police Guards supplied to them out of a Budget provision in their own departmental estimates.

3. These Cash payments between Departments have, after two years' experience, proved so embarrassing in practice that the President in Council directs that henceforth the pay of the whole of the officers and men of each force shall be drawn in one bill, or, if found more convenient, in separate bills for each district; but the debit against the Police Budget grant will be, in the aggregate, for the charges in the entire Presidency or Province, and not according to the district distribution of the charges.

4. The only case in which any demand for re-payment will have to be made, will be when special services are performed for private companies, theatres, &c., or when payments are authorized by the Police Act.

5. As a rule it is not desirable to introduce changes of system and extensive transfers in account after the Budget has been settled and payments according to the Budget allotment have begun; but cash payments for Police supplied to Departments have proved so inconvenient that the general rule must in this case be set aside.

6. Accordingly it is directed that the sums noted in the accompanying statement, which have been taken for Police in the other Departmental estimates for this year, be transferred to the Head of Police of the respective Presidencies and Provinces, and that the necessary adjustments of payments already made by Departments be arranged by the Deputy Auditors and Accountants General.

7. The Police estimate for next year should include the whole of the expenditure for that branch of the service.

8. The Hon'ble the President in Council at the same time desires to preserve an equivalent for any economical check that may have attended the inter-departmental cash payments which are now abolished.

9. This check will be ensured by throwing more responsibility than has hitherto been done on the Department providing for the service.

*Proceedings of the Madras Government, Public Works Department,
5th September 1864.*

10. The Officers of Police are the proper authority for determining the strength of a treasure or prison escort, or the number of men sufficient to guard a jail or a lock-up, for in all such cases, the Police Department is responsible for the safe custody of the people or property placed under their charge; and the Home Department will accordingly be requested to give directions that every application for Police Guards shall be scrutinized by the proper Officers of Police.

11. In the event of dispute or difference as to the strength of Guards required or as to their employment at all, the matter should be settled by the Head of the Department from whom the requisition has come, in communication with the Inspector General of Police, a final reference being made, if necessary, to the Local Government.

12. The abolition of inter-departmental cash payments should be accompanied by a careful revision by each Inspector General of Police of the Guards of every sort now supplied to Departments.

13. The reductions effected in this direction in the Oudh Police, encourage a hope of similar economy by a like careful revision in other Presidencies.

14. Further, with a view of watching over the demands of the several Departments for Police Guards, the Police Department should be required to keep up carefully prepared distribution lists of the entire Police Force.

15. By a reference to these lists, it may be immediately ascertained whether an undue increase has taken place in the number of guards required for any particular service.

16. These Distribution Lists will also enable the Government to form a correct Estimate of the cost of Police under the several Heads of Jail Guards, Treasure escort, &c.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Home Department, and that it be also sent to all Local Governments and Chief Commissioners for their information and guidance, in reference to the preparation of the Estimates and Accounts of the Police expenditure.

Ordered, also, that a copy be published in the Calcutta Gazette for general information, and for the guidance of the Civil and Military Pay and Audit Departments; likewise that a copy of the Proceedings of the Home Department, dated 24th March 1863, be communicated to the Deputy Auditor and Accountant General and the Civil Paymaster, North Western Provinces.

No. 86. ORDER THEREON, 5th September 1864, No. 2,567.

Communicated to the Superintending Engineers and to the Controller of Public Works Accounts.

*Proceedings of the Madras Government, Public Works Department,
4th August 1866.*

No. 72. Read the following Proceedings of the Madras Government in the Financial Department, dated 24th July 1866, No. 276 :—

Read the following letter from the Secretary to the Government of India, to the Comptroller General of Accounts; dated Simla, 28th June 1866, No. 1,013.

I am directed to acknowledge the receipt of your letter, No. 1379, dated 29th March 1866, reporting that the Resolution of 14th October 1865, No. 2,761, that expenditure incurred in one Department on account of another Department shall be charged to the Budget Grant of the former, is opposed to the ruling in your Circular, No. 12, of 4th September 1865, “that all charges incurred in the Civil “on account of the Military Department, and *vice versa*, will be adjusted as charges “of the Department on account of which they are incurred, and not as charges “against the Budget of the incurring or supplying Department.”

2. It is not necessary for you, however, to modify your Circular—its opposition to the Order of 14th October 1865 being more in appearance than reality. When a payment in the Civil on account of the Military Department, or *vice versa*, is debitable to the other Department, your Circular lays down the procedure for that case; but it properly abstains from stating that all charges entailed upon one Department by another must be debited to the latter.

3. You now recommend, however, that, at least for certain important or special Departments, expenditure on their account, in whatever Department it may be incurred, should be debited against them, or else “that some definite limit be “laid down beyond which supplies made by one Department to another should “be debited against the Department supplied, and not against its own Budget Grant.”

4. It is necessary to distinguish between charges for Establishments and expenditure for Stores.

5. In the inquiry into expenditure in 1859, 1860, 1861, difficulty was experienced in ascertaining, even approximately, the amount of Police charge, owing to the intermixture of a portion of Police with the Establishments of other Departments. This difficulty is now at an end, but it would revive, were the charge for Police, when it is incurred more immediately for the service of another Department, to be debited to that Department, and hence a Police charge should not be shown against any other than the Police Grant, merely because it may happen to be incurred especially for some Public Department.

6. The same remark applies to Marine charges, and to the important item of Army expenditure. For the latter, it is recognized as essential to a proper economy that the Military charges should be estimated for according to the three Armies which are under three Administrations, irrespectively of the territories in which they may be serving; and in like manner it is essential that no part of the Military Establishments should disappear from the Military Estimates, by inclusion in the Civil Accounts, on the mere ground of their rendering services to the Civil Department.

7. Again, with regard to fixed Establishments which work for more than one Department, as, for instance, the Medical Store Department, the entire charge for such Establishments should appear in the estimates of the Department which

*Proceedings of the Madras Government, Public Works Department,
4th August 1866.*

controls the Establishments, no part of it being debited to any other Department, even when particular individuals may be told off for the work of such other Department.

8. Hired labor (not including extra Police), which may be engaged by one Department expressly for the service of another Department, may be charged to that other, at the option of the supplying Department; but the latter will show a proper discretion (in avoiding much ado about trifles) if it adjusts inconsiderable charges of this kind against its own Grant, as the Public Works Department was authorized to do by the Financial Resolution of 14th October 1865. Where the supplying Department elects to debit the charge for hired labor to the Department benefited, the countersignature of the Departmental Examiner of the former should vouch the correctness of the charge, and the adjustment might proceed in the manner prescribed in your Circular, No. 12, of 4th September 1865.

9. The foregoing remarks apply to ordinary administrative services chargeable to the general Revenues; but where any Establishment paid from those Revenues is employed to any appreciable extent on work connected with Port Funds or Local Funds, a division of charge between them and the General Revenues is indispensable by as exact an apportionment of debits as may be practicable.

10. Again, for the exceptional case of a Field Force, such as the Bhootan Field Force, in which the bulk of the expenditure is Military, while the Postal and (sometimes) the Police Departments also co-operate, a special arrangement for ascertaining the actual cost of the new operations may be necessary. The extra charges of the Police and Postal Departments on such occasions were, under the old system, debited to the Military grant; but under the new system of account, this is not absolutely necessary, for it will suffice to show the War charges of the Postal and Police Departments under a head of the Field Force subordinate to the Postal and Police grants, whereby the total cost of the field operations may be readily ascertained.

11. For stores, the Receiving Department is already required to supply funds, or (which is a preferable arrangement, when practicable) to afford credit to the Supplying Department, in the undermentioned cases, *viz.*,

1st.—When the Supplying Department has to buy the articles required by Financial Resolution, No. 3,837, dated 18th August 1863. the Receiving Department.

2nd.—For supplies by the Cossipore Foundry to the Public Works Department. Financial Resolution, No. 1,027, dated 28th February 1865.

3rd.—For wear and tear of tents which, in special cases, may be supplied by the Ordnance Department. Financial Resolution, No. 615, dated 7th June 1865.

4th.—For supplies furnished by workshops of the Public Works Department to other Departments. Financial Resolution, No. 2,277 A., dated 18th September 1865.

5th.—For timber supplied by the Forest Department to all branches of the Public Service.

And, furthermore, the Public Works Department is placed in funds by the Barrack Department for its supplies to the latter.

*Proceedings of the Madras Government, Public Works Department,
4th August 1866.*

12. Apparently, the only considerable supply of Stores by one Department to another which is now excepted from the foregoing modes of adjustment, is that of arms and ammunition furnished from Magazines to the Police. As this and any other like exception can hardly be said to prove the rule which has been practically set aside by the decisions above quoted, I am directed to state that, subject to the remarks conveyed in the 7th and 8th paragraphs, the value of Stores may be debited to the Receiving Department at the option of the Supplying Department.

13. The examples at pages 56 and 57 of the statement of Saving and Deficiencies upon the grants for Navy Services in 1863-64, which are cited in support of the recommendation in your letter, hardly warrant any relaxation of existing rule beyond that now authorized, for they relate principally to disbursements made by the Navy to Officers or Establishments under the control of other Departments, not to services performed by Naval Establishments for other Departments.

ORDERED that the foregoing letter be communicated to the Military and Public Works and Home Departments; to the various Local Governments and Administrations; and to the several Accountants General, and to the Deputy Accountants General in independent charge.

*Proceedings of the Madras Government, Public Works Department,

Read the following letters :—

No. 349. From the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 26th March 1867, No. 4,319.

1. I have the honour to forward, herewith, an original letter from the Accountant General, Madras, of the 22nd instant, No. 6,322, and the correspondence which accompanied it, and, with reference to Circulars from that Officer, dated the 2nd October 1866, No. 22, and 22nd January 1867, No. 31, also herewith sent, I have instructed the proper
- 1 Circular from the Accountant General, Madras, dated 2nd October 1866, No. 22.
1 Do. from the Accountant General, Madras, dated 22nd January 1867, No. 31.
1 Letter from the Accountant General, Madras, dated 22nd March 1867, No. 6,322, with its enclosures, 3.
(To be returned.)

Range Officer to discharge the amount of the bill submitted by the Superintendent of Police, North Arcot, viz., Rupees 85-6-1.

2. The orders of the Government of India ruling that Police guards, employed by other departments of the State, are not to be paid for by those departments, but are to be borne as a charge of the Police Department, were relaxed only in the case of the Lawrence Asylum works, but the Accountant General's Circulars show that this relaxation has been made general, as respects the Police guards over convicts employed on any
- G. O. 5th September 1864, No. 2,567.
G. Os. 8th November 1864 and 3rd December 1864, Nos. 3,210 and 3,460.

public work. I request to be furnished with a copy of the orders on this case for circulation to all Range Officers.

3. A Standing Order, No. 24 of 1866, regarding the adjustment of such charges in the Public Works accounts is alluded to in the Accountant General's Circular of the 22nd January 1867, but the Standing Order in question has not been furnished to this Office, and I would here suggest that copies of all Standing Orders affecting the Public Works Department be furnished here, should the Government see no objection.

4. It is observed that the foregoing correspondence has apparently no reference to the hire of the convicts, which, under the orders noted in the margin, is not to be paid for or adjusted in this
- G. O. 16th November 1864, No. 3,292, and 9th January 1865, No. 39.

department to the credit of the Judicial Department, as hitherto, and under this ruling no charge for the hire of such convicts is included in the estimates of the work; but in the case of the charge now made for the Police guards over convicts so employed, for which also no provision is stated to be made, it appears to me that, for the present, such charge should be admitted as extra to the provision and grant for the works, and that, in future estimates of work to be done in part or wholly by convicts, sufficient allowance should be made for the extra charge.

*Proceedings of the Madras Government, Public Works Department,
16th April 1867.*

No. 350. From the Acting Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 6th April 1867, No. 95.

1. In continuation of Captain Fischer's letter of the 26th March last, No. 4,319, I have the honour to forward, herewith, a further letter from the Accountant General, Madras, dated the 29th idem, No. 6,521, with its several accompaniments, in original.

2. The correspondence refers to claims made for pay of Police guards over convicts employed at the Jails at Tellicherry and Madura. The charge in these cases amounts to Rupees 90-12-1 and Rupees 518-13-4 respectively, on account of pay of Constables, &c., for February 1867, in the latter case termed a "private guard." The Accountant General desires that Circular instructions may be at once issued to all Superintending Engineers to pay the amount of bills on such account, but I do not feel authorized to do so until the receipt of instructions from Government on the subject.

3. The Superintending Engineer, 7th Division, in objecting to order the payment of the bill for the guard over convicts employed in the repairs and improvement of the Jail at Tellicherry, remarks that the demand made might possibly apply to cases in which guards are supplied for convicts employed on detached works in special Jails, managed by Public Works Officers, like the Lawrence Asylum works, while, in this case, the prisoners employed at Tellicherry are attached to Jails under Civil Officers requiring to be guarded whether employed on Public Works or not.

4. The Superintending Engineer, 8th Division, points out that the charge of Rupees 518-12-4 for one month for guards over convicts employed on the new Jail at Madura, calculated for the two years the work is expected to be in progress, will make an addition to the cost of the work of upwards of 12,000 Rupees, though the convicts were ordered to be employed with the express view of reducing the expenditure on the work.

5. It will rest with the Government to decide whether the change now to be made in the debiting of the charges on account of Police guards over all public works is to apply to the ordinary pay and allowances of such guards while employed on public works, by which the Civil Department will be relieved of the ordinary charges on this account for this period, or whether the debit to the Public Works Department is to be made of only extra batta and other incidental charges, if any is incurred on account of such employment of the guards. Any reserve or additional Police guards for detached duty on works in progress would also probably be chargeable to the Public Works Department, if specially engaged for the service, and not provided for in the Civil Budget.

No. 351. ORDER THEREON, 16th April 1867, No. 1,173.

ACCOUNT, No. 30.

1. From the accompanying extract from the Standing Orders of the Government of India for the year 1866, it is observed that estimates for works on which it is proposed to employ prison-

*Proceedings of the Madras Government, Public Works Department,
16th April 1867.*

labour should hereafter provide for the cost of Police guards, their pay being disbursed by the Public Works Department on presentation of a bill by the Police Officer. Under this ruling, which it is evident was intended to apply to this Presidency although it has not been communicated to this Government in supersession of the orders embodied in Proceedings No. 2,453 of the 4th August 1866, the charges referred to by the Controller are debitable to this department, and will accordingly be admitted for the present as extra to the amounts of the estimates for works on which convicts are employed, care being taken to make due provision for the purpose in all future estimates.

2. The Superintending Engineers will submit a Statement of the probable excesses over estimates which these orders will involve.

No. 24.

POLICE GUARDS.
