of the Penitentiary 10 per cent on the net profits of jail manufactures is also approved. The percentage will be calculated in accordance with the instruction laid down in Clause 244 of the Rules for the Management of jails in the Presidency.

3 The Governor in Council entirely concurs with Major Hearn as to the expediency of appointing a European or Eurasian Matron to have charge of the female prisoners, but he is of opinion that the person appointed should be unconnected with the Keeper of the jail. If this arrangement should necessitate a higher salary the Government will be prepared to sanction any moderate increase that the Superintendent may recommend.
