*Proceedings of the Madras Government, Judicial Department,
27th February 1868.*

No. 316. Read the following letter from the Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 30th January 1868, No. 49.

I have the honor to submit, for the information of Government, the enclosed correspondence regarding the reported removal of Assistant Surgeon Gamack, of this Department, from Port Blair.

From Deputy Inspector General, Indian Medical Department, Pegu Division, No. 25, dated 17th January 1868, and two enclosures.

2. I have had no previous intimation of this removal, nor have I now been put in possession of any other information on the subject, than that contained in the documents herewith forwarded, and I am therefore unable to offer any definite opinion on the matter.

3. So far, however, as I can judge from the reports on Dr. Gamack, both by his immediate Military superior, and by the Deputy Inspector General of the Pegu Division, he would appear to have performed his duties with zeal and ability, and I would solicit that, in justice to him, Government may be pleased to call for further information regarding his sudden removal, with a view to his being allowed the opportunity he asks for of replying to any charges that may have been brought against him.

From the Deputy Inspector General, Indian Medical Department, Pegu Division, to the Secretary to the Inspector General, Indian Medical Department, Fort Saint George; dated Rangoon, 17th January 1868, No. 25.

I have the honor, in forwarding the accompanying correspondence as requested by Dr. Gamack, of Chatham Island, Port Blair, to state that at my annual inspection of that Settlement from which I have just returned, I have much pleasure in stating that the hospitals under Dr. Gamack's charge were remarkably clean, neat, and nicely arranged; indeed I may say after a lengthened and close inspection of the hospitals under his immediate charge, I could find no possible cause of complaint.

2. I beg to append extract of Deputy Inspector General W. G. Prichard's report for 1866 on Dr. Gamack.

3. I trust the subject may be submitted to Government with your favorable support, as Dr. Gamack feels deeply the slur cast on his professional reputation.

From the Deputy Inspector General, Indian Medical Department, Pegu Division, to the Superintendent, Port Blair; dated Port Blair, 10th January 1868, No. A.

I have the honor to enclose letter from Dr. Gamack, with enclosures (to be returned,) of Chatham Island, to the address of Dr. Rean, Senior Surgeon, Port Blair, forwarded to me for submission through the prescribed channel to the Madras Government, and eventually to the Supreme Government, regarding Dr. Gamack's very sudden and unexpected removal from this Settlement. The communication speaks for itself. I will only add that I fully concur in the sentiments expressed by Dr. Gamack, but I am solicitous before forwarding it, with a view of having the references complete if possible, to ask the favor of the expression of your opinion as to Dr. Gamack's zeal, energy, and attention to his duty, and if you consider, from your personal observation, he has had the interest of the Government and the general welfare of the Settlement at heart, and exercised his ability to the best of his power for its advancement.

From the Superintendent, Port Blair, to the Deputy Inspector General, Indian Medical Department, Pegu Division, Port Blair; dated Port Blair, 10th January 1867, No. 1453.

I have the honor, in reply to your letter No. 1 A., dated the 10th instant, asking for an expression of my opinion regarding the nature of Dr. Gamack's services, to state that I have, for nearly four years, had opportunity of personal observation of that officer, and the manner in which

*Proceedings of the Madras Government, Judicial Department,
27th February 1868.*

he has habitually performed his duties; and I undoubtedly consider that he has had the interest of the Government, and the general welfare of this Settlement at heart; and that he has certainly exercised his ability to the best of his power for their advancement.

2. In this feeling I have felt it my duty, in each of the three annual Administration Reports which I have submitted to Government, to record my sense of the assistance I have received from Dr. Gamack's good services, which I am bound, in justice, to record have always been rendered with cheerfulness, alacrity, and care.

From the Senior Medical Officer, Port Blair, to the Deputy Inspector General of Hospitals, Pegu Division; dated Port Blair, 10th January 1868.

I have the honor to forward the accompanying letter, in original, from Dr. Gamack, and, as requested by that officer, I take this opportunity of recording my high opinion of his zeal and attention to his medical duties during the period I have been Senior Medical Officer at this Station. From the day I assumed charge I have always found Dr. Gamack most solicitous for the health and advancement of the Settlement, and on no occasion have I had the slightest grounds to doubt Dr. Gamack's desire to do all that in his power lay for the welfare of those committed to his charge.

2. Dr. Gamack has never failed to bring to my notice any cause which he considered likely to be prejudicial to the health of the prisoners, and from an intimate acquaintance with him for more than eight months, I can state he has endeavored most conscientiously to fulfil his duties, and by his sobriety and attention has given satisfaction to all with whom he has been brought in contact professionally.

From A. GAMACK, Esq., A. M., and M. D., Civil Assistant Surgeon, Port Blair, to the Senior Medical Officer, Port Blair; dated Port Blair, 9th January 1868.

Having become aware of the remark made by the Chief Commissioner of British Barmah concerning myself, in his Minute on Major Davies' report on Port Blair, and the Governor General in Council having thereon expressed his opinion that he "entirely concurs in the necessity of relieving Dr. Gamack at Port Blair," and as I feel thereby much injured, and would seem to be returning to Madras with a slur cast on my name, by which my future prospects in the service would be damaged, I would solicit the favor of a strict investigation of my whole conduct, and that the Chief Commissioner be requested to give a full and explicit statement of anything which he may have to say against me, and that I may have an opportunity of replying, as I did consider that an English Gentleman, and an Officer of Her Majesty's Service, had the privilege of a hearing before he was condemned.

2. I was painfully taken by surprise on hearing of his remarks, and never in the whole of my service in any previous report have I seen or heard of any derogatory statement having been made regarding me, but on the contrary have had my services acknowledged by me, and have always had the satisfaction of thinking that my labors were appreciated by those under whom I served; further I am confident that the Superintendent of Port Blair, my immediate superior, the Deputy Inspectors General who have visited this Settlement on different occasions, or any one else who may be competent to give an opinion, on being asked, would affirm that I have always conscientiously done my duty to the best of my ability, and have exerted myself to the utmost for the welfare of the Settlement.

3. In paragraph 47 of Colonel Fyche's Minute he "fears Dr. Gamack has never exerted himself as he might have done." I would solicit to be informed of the grounds of his fears, or suppositions, and his reason for expressing them first direct to the Governor General in Council, seeing the local authorities if asked would soon have removed them.

4. He further states, "Sir Robert Napier reported unfavorably of this officer," and adds, as his opinion, "that Dr. Gamack had been at Port Blair quite long enough, and could be relieved with advantage." I am not aware that Sir Robert Napier ever reported unfavorably of me, but as I was at that time in sole Medical charge of a wide spread and rapidly increasing Settlement, he did not consider one Medical Officer sufficient, and recommended that a more experienced officer

*Proceedings of the Madras Government, Judicial Department,
27th February 1868.*

should be sent, as well as my services retained; I am at a loss to see how my *then* youth, and experience can now, after about five years' additional experience, be brought up as unfavorable, or in any way be held forth as rendering me unfit for an appointment which I was even then considered competent to hold.

5. What Major Davies may have said privately concerning me I cannot tell, but in his report I can perceive nothing which could have given rise to the remarks in question.

6. Major Davies in paragraph 46 mentions that he and Dr. Kelly visited Viper Hospital, and gives it as their opinion that "there is a great want of ventilation" and altogether the arrangements appeared "very bad." The arrangements were not mine, but, taken into consideration the means and buildings available, they had the approval of the late Senior Medical Officer. I would however doubt the authority, Dr. Kelly, an Assistant Surgeon in the same service as myself, but my Junior, had to express an opinion on the acts of his Seniors, or how he has distinguished himself in Sanitary science so as to give his opinion weight.

7. In paragraph 53 of his report Major Davies has stated that "the Medical Report for 1866, drawn up by Assistant Surgeon Gamack, is very meagre." I would point out that Dr. Morton, late Senior Medical Officer was in Medical charge throughout the year on which I had to report, and, as I mentioned in the first paragraph of it, I was diffident in passing any remarks on the acts of an officer so far my Senior in years and experience, and to the date of his death, the 11th February 1867, my immediate superior.

8. I can find no other remarks made concerning me except one in Major Davies' letter No. 1015 C., dated 8th July 1867, forwarding Monthly Report on the affairs of the Settlement of Port Blair for the month of May 1867, in which it is said "The Chief Commissioner has some doubt whether two Doctors are sufficient to cope with such a mass of disease, at any rate he is quite certain that the sooner Mr. Gamack is relieved the better." A positive opinion is here given, and I consider the terms used in regard to myself as most disparaging and detrimental to my professional reputation, and I would humbly solicit that, although only an Assistant Surgeon, the Government will not allow me, a servant who has labored hard for over nine years for the good of this Settlement, during the most trying years of its existence, and had to strive against an amount of sickness and disease which but seldom falls to the lot of a Medical Officer to experience, to be thus crushed by such condemnatory remarks by those who have seen or known but little of me, and which I hold are altogether unfounded and not to be proved.

9. I can only further add that I feel much hurt at receiving such a return for all the anxiety, labor, and toil I have had in this Settlement, particularly as after having left it and obtained another appointment. I was specially telegraphed to, by the Supreme Government, to know whether I would return to Port Blair, a call which I immediately responded to, for the good of the Public service, and have continued in the appointment although in no wise to my pecuniary advantage, since which I have had an acknowledgment of the assistance derived from my services expressed in each Administration Report on the place.

10. In conclusion I would request that you will be good enough to forward this at once with any remarks you may deem advisable to the Deputy Inspector General, Pegu Division, who is at present here, and can pass an opinion on what he has seen, and that he may be requested before leaving this Settlement to call upon Lieutenant-Colonel Ford, the Superintendent of Port Blair, to record his opinion of my services, so that the whole may be forwarded for the consideration of Government, and that justice may be meted to me for the injuries done to my reputation, and that I may *then* be relieved from my appointment here.

Proceedings of the Madras Government, Judicial Department.
Read the following letter from W. GREY, Esq., Secretary to the Government of India, to T. PYCROFT, Esq., Chief Secretary to the Government of Port Saint George; dated Fort William, 5th June 1861, No. 1143.
HOME DEPARTMENT—Judicial.

I am directed to inform you that it being considered unnecessary to retain the services of two Medical Officers at Port Blair, the Deputy Superintendent of the Settlement will be placed in

Proceedings of the Madras Government, Judicial Department,

27th February 1868.

Medical charge of the vessels in addition to his other duties, and the services of Assistant Surgeon Gamach will be placed at the disposal of the Madras Government from the date on which he may take over charge of his Office to Dr. Hagen. In conveying this intimation, I am desired by the Governor General in Council to forward an Extract of Captain Houghton's letter in which the services of Dr. Gamach are very favorably mentioned, and to request that the same may be brought specially to the notice of His Excellency the Governor of Madras.

Extract of a letter from Captain J. C. HAUGHTON, Superintendent of Port Blair; dated 24th April 1861, No. 82.

The health of the Settlement has very materially improved, and the Madras Apothecaries have proved themselves very competent to their duties, that I have no hesitation in saying that I could have no Surgeon amply efficient for the duties of this Settlement. Should His Lordship's Council determine on dispensing with Dr. Gamach, I trust the valuable services he has rendered during three years—his services commencing with the existence of the Settlement—may not be forgotten. Dr. Gamach's duties for two years were certainly of a most trying nature, and I beg to recommend him to His Lordship's favorable consideration.

(True Extract).

(Signed) W. GREY,

Secy. to the Govt. of India.

Order, 26th June 1861, No. 828.

A copy of the foregoing letter and its enclosures will be furnished to the Provincial Commandant at Port Blair to the Principal Inspector General, Medical Department, and their special attention will be directed to the Extract of a communication from the Superintendent of Port Blair, in which the services of Dr. Gamach are very favorably mentioned.

(True Copy).

(Signed) W. H. REAN.

Extract from Deputy Inspector General W. G. PIERCE's Inspection Report on Port Blair for 1866, April 26th.

"Assistant Surgeon Gamach resides on Chatham, and is close to the large hospital. A boat and convict crew are provided for him, that he may visit, as required, Viper Island and Hospital and the other localities around. He appears active, intelligent, and interested in his duties.

"In addition to the accommodation in the lower part of the hospital a stair leads up to a platform over one-half of the floor, forming a kind of second storey which gives much more space for the sick, but advantage was not taken of this sufficiently, much of the room being taken up by bedding, furniture, and some of the hospital servants.

"I requested Dr. Gamach to make the most of this space for the use of the more trifling cases among the sick, and thus afford further accommodation below."

(A true Extract).

Proceedings of the Madras Government, Judicial Department,

27th February 1868.

No. 317. To the Secretary to the Government of India, Home Department, dated Fort Saint George, 27th February 1868, No. 332.

The Inspector General, Medical Department, of the Madras Presidency, having submitted to this Government certain papers regarding the removal of Assistant Surgeon Gamach from Port Blair, and reference being made in them to a Minute written by Colonel Fytche, and to the Resolution of the Governor General in Council thereon, I am directed to request that, with the permission of the Governor General in Council, the Madras Government may be favored with copies of the Minute and Resolution referred to, to enable them to ascertain correctly the grounds on which Assistant Surgeon Gamach was removed from his appointment at Port Blair.

FROM

A. GAMACK, Esq. A. M. & M. D.

Civil Assistant Surgeon, Port Blair.

TO

The Senior Medical Officer, Port Blair.

Dated Port Blair, the 9th January, 1868.

SIR,

Having become aware of the remark made by the Chief Commissioner of British Burma concerning myself, in his minute on Major Davies' report on Port Blair, and the Governor General in Council having thereon expressed his opinion that he "entirely concurs in the necessity of relieving Dr. Gamack at Port Blair," and as I feel thereby much injured, and would seem to be returning to Madras with a slur cast on my name, by which my future prospects in the service would be damaged, I would solicit the favor of a strict investigation of my whole conduct, and that the Chief Commissioner be requested to give a full and explicit statement of anything which he may have to say against me, and that I may have an opportunity of replying, as I did consider that an English Gentleman, and an Officer of Her Majesty's Service, had the privilege of a hearing before he was condemned.

2. I was painfully taken by surprise on hearing of his remarks, and never in the whole of my service in any previous report have I seen or heard of any derogatory statement having been made regarding me, but on the contrary have had my services acknowledged, and have always had the satisfaction of thinking that my labors were appreciated by those under whom I served; further I am confident that the Superintendent of Port Blair, my immediate superior, the Deputy Inspectors General who have visited this settlement on different occasions, or any one else who may be competent to give an opinion, on being asked, would affirm that I have always conscientiously done my duty to the best of my ability,

and have exerted myself to the utmost for the welfare of the Settlement.

3. In paragraph 17 of Colonel Pyche's minute he "feels Dr. Gamack has" "never exerted himself as he might have done." I would solicit to be informed of the grounds of his fears, or suppositions, and his reason for expressing them first direct to the Governor General in Council, seeing the local authorities if asked would soon have removed them.

4. He further states "Sir Robert Napier reported unfavorably of this officer" and adds as his opinion "that Dr. Gamack had been at Port Blair quite long enough and could be relieved with a benefit." I am not aware that Sir Robert Napier ever reported unfavorably of me, but as I was at that time in sole Medical charge of a wide spread and rapidly increasing settlement, he did not consider one Medical Officer sufficient, and recommended that a more experienced officer should be sent, as well as my services retained; I am at a loss to see how my then youth and experience can now, after about five years' additional experience, be brought up as unfavorable, or in any way be held forth as rendering me unfit for an appointment which I was even then considered competent to hold.

5. What Major Davies may have said privately concerning me I cannot tell, but in his report I can perceive nothing which could have given rise to the remarks in question.

6. Major Davies in para 16 mentions that he and Dr. Kelly visited Viper Hospital and gives it as their opinion that "there is a great want of ventilation" and altogether the arrangements appeared "very bad." The arrangements were not mine, but, taken into consideration the means and buildings available, they had the approval of the late Senior Medical Officer. I would however dissent the authority Dr. Kelly, an Assist. Surgeon in the same service as myself but my Junior, had to express an opinion on the acts of his Seniors, or how he has distinguished himself in Sanitary science so as to give his opinion weight.

7. In para 53 of his report Major Davies has stated that "the" Medical Report for 1866 drawn up by "Assistant Surgeon Gamack is very meagre." I would point out that Dr. Morton late Senior Medical Officer was in Medical charge throughout the year on which I had to report, and I mentioned in the first paragraph of it, I was diffident in passing any remarks on the acts of an officer so far my Senior in years and experience, and to the date of his death, the 11th February, 1867, my immediate superior.

8. I can find no other remarks made concerning me except one in Major Davies' letter No. 1045 C. dated 8th July, 1867 forwarding Monthly Report on the affairs of the settlement of Port Blair for the month of May 1867, in which it is said "The Chief Commissioner has some doubt whether two Doctors are sufficient to cope with such a mass of disease, at any rate he is quite certain that the sooner Mr. Gamack is relieved the better." A positive opinion is here given, and I consider the terms used in regard to myself as most disparaging and detrimental to my professional reputation, and I would humbly solicit that, although only an Assistant Surgeon, the Government will not allow me, a servant who has labored hard for over nine years for the good of this Settlement, during the most trying years of its existence, and had to strive against an amount of sickness and disease which but seldom falls to the lot of a Medical officer to experience, to be thus crushed by such condemnatory remarks by those who have seen or known but little of me, and which I hold are altogether unfounded and not to be proved.

9. I can only further add that I feel much hurt at receiving such a return for all the anxiety, labor, and toil I have had in this settlement, particularly as after having left it and obtained another appointment, I was specially telegraphed to, by the Supreme Government, to know whether I would return to Port Blair, a call which I immediately responded to, for the good of the Public service, and have continued in the appointment although in no wise to my pecuniary advantage, since which I have had an acknowledgement of the assistance derived from my services expressed in each administration report on the place.

10. In conclusion I would request that you will be good enough to forward this at once with any remarks you may deem advisable to the Dy. Inspector General, Pegu Division who is at present here, and can pass an opinion on what he has seen, and that he may be re-

Civil Assistant Surgeon.
