Proceedings of the Madras Government, Judicial Department,
5th March 1868.

No. 56. Read the following Proceedings of Government in the Public Works Department, dated 20th February 1868, No. 573.

Sanctioning certain transfers of funds. { (Vide Proceedings, Public Works Department, dated 20th February 1868, Nos. 452—462).

No. 57. ORDER THEREON, 5th March 1868, No. 377.

Communicated to the Inspector General of Jails, to the Magistrates of Madura, Tinnevely, Malabar, Salem, Vizagapatam, and South Arcot, and to the Civil and Session Judges of Salem, Vizagapatam, and Rajahmundry.

(Signed) R. S. ELLIS,
Chief Secretary.

To the Inspector General of Jails.

„ Magistrate of

„ Civil Judge of

Read the following papers:—

No. 452. From the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 8th January 1868, No. 223.

Enclosures 3.

1. I have the honor to submit herewith three Statements, marked A, B, and C, from which it will be seen that additional funds, to the extent of Rupees 66,506, are required for expenditure in the current year in this Division, while a sum of Rupees 12,552 is given up.

2. Statement B contains works on which expenditure has already been incurred in excess of appropriations or grants, in anticipation of adjustment by savings from appropriations for other works, and by allotment of additional funds by transfer from other Divisions. To adjust this expenditure an assignment of Rupees 26,906 is required.

3. The Statement C shows works sanctioned, but not yet commenced for want of funds, and a sum of Rupees 39,600 can, with advantage, be spent on these works in this year if funds can at an early date be made available by transfers from other Divisions.

No. 453. From the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Dowlaishweram, 3rd February 1868, No. 240.

I have the honor to submit the accompanying statements of transfer of funds from one head to another under "Repairs," from which it will be seen that additional funds to the extent of Rupees 1,339 are required; but as the sum of Rupees 1,600,* proposed to be given up from the head "Military," is not available for works under other heads, the supplemental allotment required will be Rupees 2,939, which sum is required to meet the appropriations already made by this office in excess of the year's grants.

	1,600

No. 454. From the Superintending Engineer, 2nd Division.
(Here enter 5th January 1868.)

No. 455. From the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Nellore, 6th February 1868, No. 140.

From the last returns furnished by the Range Officers in this Division, I find that further alterations are necessary in the allotments of funds referred to in my Statements, dated 5th ultimo. I accordingly beg to enclose two supplemental statements, exhibiting the money required, and money not required on different works, and request that the Government will be pleased to sanction the necessary transfers.

*Proceedings of the Madras Government, Public Works Department,
20th February 1868.*

No. 458. From the Superintending Engineer, 2nd Division, to the Secretary to Government, Department Public Works, dated Nellore, 6th February 1868, No. 142.

Referring to paragraph 3, of G. O. No. 368, dated 3rd instant, I have the honor to state that Rupees 2,100 are emergently needed for "Tools and Plant" in addition to the existing grants of this Division. The reason of a larger sum having been applied for in my letter to the Controller of Public Works Accounts, No. 68, dated 17th December last, was the desire that the whole cost of the iron punt, constructed in the Dowlaishweram Workshop, might be paid at once. I request you will have the goodness to obtain the sanction of Government for the following allotments. The money needed for Nellore is to pay for Archimedean screws lately constructed for draining foundations of masonry works, and is urgently required.

	Kistna.	Nellore.

No. 457. From the Superintending Engineer, 5th Division, to the Secretary to Government, Department Public Works, dated Cuddalore, 3rd February 1868, No. 217.

With reference to G. O., No. 2,967, of the 3rd October 1865, I have the honor to forward the Statements of "Savings and Demands" in the 5th Division.

No. 458. From the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Madura, 29th January 1868, No. 2,155.

1. I have the honor to forward Statements of Savings and Demands in the Madura and Tinnevelly Districts, as required by G. O., No. 5, of the 3rd December 1864.

There are several transfers, for which I request sanction between different Budget heads, and from one district to another, viz.:-

2. Under the head New Works a sum of Rupees 688 is required for the completion of the Shunmooganadi bridge, in the Madura District, for which I made a special application: but was instructed in G. O., No. 106, of the 13th January 1868, that the amount required (now altered by recoveries from Rupees 697-0-6) would be allotted when the Statements of Savings and Demands are brought under the consideration of Government. A sum of Rupees 500 was sanctioned in G. O., No. 1,437, of the 11th May 1867, for the investigation of the Perryaur project; and the unexpended balance, Rupees 300, is required for ordinary minor agricultural new works in the same District, Madura. I might perhaps have made this transfer, as under one head, without reference; but the grant having been made for a specific purpose, I have thought it advisable to include it, to forestall objections in the Account Department. Certain minor improvements to Subsidiary Jails have been called for by the Magistrates: to the extent of Rupees 443 in Madura and Rupees 170 in Tinnevelly, in part of the latter sum Rupees 50 have been appropriated from the Budget grant for Minor New Works Civil Buildings, but

*Proceedings of the Madras Government, Public Works Department,
20th February 1868.*

no funds are further available under the same head, and I have retained a sufficient sum from the other sub-heads of Minor New Works to be now transferred for adjustment of the expenditure.

3. Under the head Repairs, the only items requiring notice are that of Rupees 100 surrendered from the maintenance allowance for the road Tirumungalum to Pulney, on account of new work not having been done to the full extent anticipated, in the year 1866-67, and, Rupees 300, entered in the Budget for the Beach road at Tuticorin, when it was not known that this road would be taken over by the Municipality.

4. As regards further demands for funds which cannot be met from the general allotment to the Division, there is required for the new Jail at Madura a sum of Rupees 5,975 in addition to Rupees 5,019, as provided above, and full explanation has been given in my letter No. 2,112 of the 25th instant. This amount is necessarily required, as payments to the full extent of the demands will have been made within a very short time.

5. If funds are available for transfer from other Divisions, I am prepared to lay out—

Agricultural New. On the estimate for supplying the Vadaneri tank, Tinnevely District, sanctioned in G. O., No. 228 of the 22nd January 1868	Rs. 1,850
Communications New. On the construction of the road from Tirumungalum to Pulney, Madura	4,500
Agricultural Repairs in Madura	2,460
Do. do. in Tinnevely	1,000

No. 459. From the Special Executive Engineer, Wynaad to the Secretary to Government, Department Public Works, dated Luckadie, 6th February 1868, No. 65.

1. I have the honor to forward Statements Nos. I and III, with the following notes:—

Post Office at Manantoddy—was completed during last official year.—A grant was asked for, but not given until May 1867, there was consequently an expenditure of Rupees 2,147 beyond allotment in 1866-67; that amount I have treated as an advance adjusted by the subsequent grant in May 1867-68.

Subsidiary Jail at Manantoddy.—Owing to alterations subsequently proposed by President of Jail Committee, and Collector of Malabar, the execution of this work has been suspended.

Alterations to Deputy Collector's Catcherry at Manantoddy.—The expenditure has been incurred in the collection of materials in anticipation of sanction; the alterations were counter-ordered by G. O., No. 9, of 6th January 1868, but the materials will answer for the new Catcherry directed by above order.

Six Magistrate's Catcherry at Vythery and Subsidiary Jail.—A revised estimate, embracing alterations proposed by President of Jail Committee, is in course of preparation.

*Proceedings of the Madras Government, Public Works Department,
20th February 1868.*

Police Stations at Ollote and Periah have exceeded the estimate by Rupees 85 and 19 respectively; sanction is requested for the excess, the works having been completed.

COMMUNICATIONS. Road between Vythery and Culputty.—The very large allotment for this road was, in anticipation of the fulfilment of a contract, undertaken by Messrs. Hinde & Co. in September 1866. At the commencement of the present working season, seeing that little progress had been made up to then, I suggested to the Contractors that they should throw up the work; this Mr. Hinde was unwilling to do, and I regret to say that the result has been a perfect failure, so far as progress is concerned.

Road between Sultan's Battery and Mysore Frontier.—It is expected that this road will in all probability be completed below the estimate, so that the saving does not quite represent the amount of unfinished work.

Timber platform bridge that forms the boundary between Wynaad and Mysore, erroneously thought to be within Wynaad limits, the grant, therefore, has not been made use of.

Timber platform bridge over Geddatory river.—This was one of the works undertaken by Messrs. Vertue and Minchin, and thrown up by them. Departmental agency has not been available to execute this work during the season.

Timber platform bridge over Cooloor river.—This too was included in Messrs. Vertue and Minchin's contract, and, on being abandoned by them, it was made over for construction to J. Tipping, Esq., c. z., who is now engaged on it, but has met with much difficulty with regard to labor, and will be unable to complete the work before the end of the official year.

Culverts between Sultan's Battery and Mysore Frontier.—Also part of Messrs. Vertue and Minchin's contract, but now being executed departmentally, and at a reduction of cost; the expenditure, therefore, represents more work than would have been the case if left to be executed by Contractors.

Culverts on road from Periah to Manantoddy.—This work is suspended until a thorough investigation has been made of the line with a view to improvements, which are imperatively required; the Range Officer has had too much other works on hand to give his attention to this work up to now.

Culputty bridge.—Up to this date I have been unable to get Messrs. Vertue and Minchin to sign the required guarantee, a draft of which has been in their possession since 2nd December last. I understood that they propose resuming work, and I have consented to pay for all performed, or any other portion of the bridge, with the exception of that under dispute. I have also reason to think that the Contractors will shortly agree to the guarantee required, and have consequently calculated on the amount that would then have to be paid them, as probable expenditure.

*Proceedings of the Madras Government, Public Works Department,
20th February 1868.*

2. There is also the expenditure alluded to in G. O., No. 320, of 30th January 1868, incurred in construction of the road within Mysore limits, of which Rupees 2,656-14-5 represents expenditure during current year, the balance having been expended in 1866-67.

3. In concluding these remarks, I beg to bring to notice that the amount of grant left unexpended in Wynaad as nearly as possible coincides with the balance of allotment that cannot be disbursed, the works for which have been given on contract.

No. 460. From the Special Executive Engineer, Wynaad, to the Secretary to Government, Department Public Works, dated Luckadie, 15th February 1868, No. 85.

1. Owing to large and unexpected influx of labor I find the expenditure for the month will be much greater than I anticipated, and consequently I should be glad to cancel that portion of my list* of savings and excess which refers to the roads from Sultan's Battery to the Mysore frontier, from Culpatty to Sultan's Battery, and Tambercherry ghaut, to the following extent, viz., reducing the saving on the first by Rupees 1,200, on the second by Rupees 1,800, and adding to the excess on Tambercherry ghaut Rupees 1,000, or a total decrease of amount surrendered of Rupees 4,000.

* Dated 6th February 1868.

2. On the other hand, the North Wynaad Range Officer has just reported that he will be unable to expend Rupees 423 of the allotment for Police buildings at Korote.†

† Sanctioned in G. O., No. 289, dated 28th January 1868.

No. 461. From the Officiating Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Madura, 15th February 1868, No. 2,313.

1. A mistake has been made in charging to the "Stock" account the value of centering ribs, used in building the Shunmooganadi bridge in the Madura District, which the Controller points out in a letter of the 11th instant, should be entered under "Tools and Plant," asking me at the same time to make an appropriation of the amount, Rupees 600.

2. I have no funds left to appropriate, and the time has past for making application in the Statements of Savings and Demands, while my proposal to adjust the value of the ribs was made in my letter

• V. G. O., No. 1,439, of 17th May 1867.

of the 1st May 1867; but in case there is money still available after the allotments given in G. O., No. 368, of the 3rd January 1868, I have the honor to request that the sum of Rupees 600 may

*Proceedings of the Madras Government, Public Works Department,
20th February 1868.*

given to the Madura District, or otherwise that the Controller may be authorized to give credit for the amount to be adjusted from general savings under the head Tools and Plant at the close of the official year.

No. 462. ORDER THEREON, 20th February 1868, No. 573.

ACCOUNT, No. 44.

1. His Excellency the Governor in Council resolves to sanction the following transfers of funds:—

3. The estimate for the work "Clearing out large tank in the Cantonment at Samulcottah." noted in the margin is entered at Rupees 1,180. The Superintending Engineer of the 1st Division will observe, on reference to G. O. No. 1,650, dated 3rd Jan 1867, that the amount sanctioned by Government is Rupees 1,280.

4. The Superintending Engineer of the 2nd Division proposes to surrender Rupees 2,000 from the grant for the "irrigation channel from the 14th mile of the Polerazukodoo to water the lands of Appapooram, Kykaloor and Atapatra." As, however, Rupees 2,500 have been diverted from this work under G. O. No. 515, dated 14th February 1868,

Godavery.—Cutting a new head to Mandapettah canal.—Allotted in these Proceedings ...	1,000	

5. Of the works entered in the separate statement submitted by the Superintending Engineer of the 1st Division, the Government have found it impossible to provide funds for any other than those noted in the margin.

6. Under the orders of Government of the 24th August 1867, No. 2,596, no special allotment is necessary for the adjustment of the excess outlay on the Jail at Nellore.

7. The Officer in charge of Public Works Operations in the Wynaad submits proposals for the transfer of a portion of the funds specially assigned for Police buildings in that Province. Captain Kennedy will communicate with the Inspector General of Police, and then address Government upon the subject, if necessary.

8. The Government are unable as yet to provide the funds still required for the undermentioned works and heads of service, but they will endeavour, if possible, to meet the requisitions of the Superintending Engineers concerned before the close of the year.
