DESPATCHED

21 JAN 95

IN M.S.

For. S. No. 1890 No 1750

No. 1234A., dated Calcutta, the 24th November 1894.

From—Surgeon-Captain J. F. EVANS, M.B., Chemical Examiner to the Government of Bengal.

To—The Secretary to the Government of India, Home Department.

I HAVE the honour to state that in accordance with Section No. 4, paragraph (1), and Sections Nos. 20 and 21, of the Petroleum Act No. XII of 1886, it will be necessary to verify, during 1895, the Petroleum Test Apparatus, which were verified in 1890.

Between August 18th, and December 2nd, 1890, fourteen instruments were verified and issued to testing officers.

Arrangements can be made to supply a testing officer with a verified instrument, while that instrument now in his possession is being tested. There are, however, fourteen stations and a considerable time must elapse in each case between the despatch of an instrument from the station, its arrival in Calcutta, its verification and return to the testing officer. The process must in some instances (such as in the case of the instrument at Aden) occupy about two months. It is accordingly advisable to begin the work of testing the instruments verified in 1890, before the legal period for which they have been certified expires.

I have accordingly the honour to request that you would authorize me to begin the work of verification as early in 1895 as I conveniently can, and that the following instructions may be now issued to testing officers through Local Governments, *viz.*, Petroleum Test Apparatus not verified since 1890, must be verified during 1895, in accordance with Section No. 4, Petroleum Act XII of 1886. On receipt from the Chemical Examiner, Calcutta, of a verified instrument, the instruments now in your possession, if not verified since 1890, must be at once despatched to the Chemical Examiner, Calcutta, for verification. On their return certified and stamped in accordance with the terms of the Act, the instrument lent by the Chemical Examiner, Calcutta, must be returned to him without delay or forwarded to any officer whom the Chemical Examiner, Calcutta, may indicate.

Calcutta, the 18 December 1894.

CHIEF SECRETARY
GOVERNMENT OF MADRAS

SIR,

I AM directed to forward a copy of a letter* from the Chemical Examiner to Government, Calcutta, in which it is pointed out that in accordance with sections 4 (1), 20 and 21 of the Petroleum Act, XII of 1886, it will be necessary to verify during the year 1895 the Petroleum Testing Instruments which were verified in 1890.

* No. $\frac{A}{1234}$, dated the 24th November 1894.

It appears that 6 sets of apparatus (including one spare set) were so verified for the Madras Presidency.

2. I am to request that, with the permission of the Governor-in-Council, the instructions indicated in the concluding paragraph of the Chemical Examiner's letter may be issued to the Testing officers concerned.

I have the honour to be,

SIR,

Your most obedient Servant,

H. Lusson

Under-Secretary to the Government of India.
