CHIEF SECRETARY
Simla, the 12 May 1895.
MAY 1895
GOVERNMENT OF MADRAS

SIR,

I AM directed to acknowledge the receipt of your letter No. 490, dated the 6th March 1895, forwarding for the orders of the Government of India a letter from Messrs. Parry & Co., Madras, in which they bring to notice that the northern Railway Companies refuse to carry Carbonite and Stonite unless the Government of India notify their classification in accordance with the Indian Explosives Act, and request that these explosives may be classified at an early date.

2. In reply I am to say that Carbonite and Stonite come under division 1 of class 3 (nitro-compound class). The terms of the Notification of this Department, No. 1417, dated the 24th June 1887, publishing rules to regulate the transport and importation of explosives, make it clear that the examples quoted under each class or division are not exhaustive, and the Government of India do not consider that there is any necessity to notify the classification of the two explosives in question. There are, in fact, numerous other explosives not specifically mentioned in the Notification which belong to class 3.

3. Although, therefore, the Railway Companies have discretion to refuse to carry any kind of explosives for their own reasons, there is nothing that need cause such refusal in the fact that Stonite and Carbonite are not mentioned by name in the rules.

I have the honour to be,

SIR,

Your most obedient Servant,

J. P. Hewett.

Offg. Secretary to the Government of India.
