DEPARTMENT.

No. 2853

CHIEF OFFICE OF THE INSPECTOR-GENERAL OF POLICE,

Madras,

11th May 1896.

FROM

M. Hammick Esq. I.C.S.

INSPECTOR-GENERAL OF POLICE,

TO

THE Chief Secretary
to Government,
Madrasmand.

SIR,

Enclosures.
Three

I have the honor to solicit the sanction of Government for the following works at Chintapalle, Vizagapatam District, viz:

1. Construction of a Police Hospital and magazine.
- and 2. improvements to the Station House, being carried out by the Public Works Department.

2. In G.O. No. 1874, dated 6 October 1894, J. L. Government remarked that it would be desirable that the hospital and magazine should be more durable structures than the other buildings and asked the Inspector General of Police to offer his suggestions. This was done by Colonel Porteous in his letter No. 7935 dated

22^d December 1892, disposed of in G.O. No 2389
dated 28th December 1892, J.D. The suggestions
were

that the hospital should be of the
same materials as the huts, but that
it should have a corrugated iron
instead of a thatched roof, that the
flooring on basement should be
asphaltic or cement and that the
walls, for about 3 feet, should be
built of brick or stone in chuanam,
and that for the magazine, a small
brick and chuanam bomb proof
building might be erected.

vide para 2
of the 2^d letter in
G.O. No 2389
28.12.92

3. The Station house at Chintapalli
was constructed in 1891 at a cost of Rs 2612.
In October 1893, when Colonel Porteous
visited the station, he left the following
remarks in the visiting book:-

vide G.O. No 601
31.3.90

"The present back of station will
become its front for which a verandah
will be required. The station also
requires lengthening at both ends
for store rooms &c. At present
the lock-ups and record room
are used for storage of tools, as
ammunition &c."

A rough plan of the station house
building

building is enclosed. The portion in
pink is the existing building, that in
yellow the two rooms proposed to be
added, the portions marked in pencil
a, b, c are the verandahs to be newly
added. The estimated cost of these im-
provements is about Rs 2400.

4. In G.O. No 1594, dated 30th July 1888,
the Government approved of Colonel
Porteous' proposal that the buildings
at Chintapalli be constructed by
departmental agency, through local
contractors and mattadars, the Public
Works Department having expressed
its inability to do the work. Subsequently
Colonel Porteous recommended that
the pukka buildings should be
constructed by the Public Works Depart-
ment, as it was found impossible for
the Police Department to carry them out.
(paras 4, 5, 8 and 10 of his letter disposed
of in G.O. No 1844, dated 6th October 1892,
J.D.). The present Superintendent
states, in his letter No 308, dated
29th March 1895, herewith submitted,
that there is only one mattadar left
at Gudem, that his hill people can-
not do anything more than mud work
that

2. that it is extremely difficult to get them even to do that; the contractor, who constructed the Police station, refuses to do any work, and that, under these circumstances, the Police Department cannot carry out the pukka works. From a copy of the Executive Engineer's letter, forwarded by the Superintendent with his letter above quoted, it appears that that officer is willing to undertake the construction of the buildings at Chintapalli.

5. I therefore request that Government may be pleased to issue orders in the Public Works Department for the preparation of the necessary plans and estimates.

- (1) for the Police Hospital at Chintapalli.
- (2) for the Magazine at Chintapalli.
- (3) improvements to the station which can be conveniently done at the same time as the above two works.

6. In its order No. 2197, dated 10th September 1894, J.D., Government decided that Chintapalli should remain the Head Quarters of the Police in the Golconda Hills and directed that the construction of the stockade and the

Wall	Rs 355
Station house	2612
30 huts	3450

the necessary buildings at Chintapalli should be vigorously pushed on. A well, station house and huts have already been built by departmental agency at the cost shown in the margin. 18 more huts (including 3 for Inspectors) are required, and these will also be erected by departmental agency. The hospital and Magazine (and therewith certain additions to the station house) are herein recommended for construction by the Public Works Department. The stockade being of earth work will be erected by the Police Department. These complete the list of works at Chintapalli. I ask for the very early orders of Government on the matter. The completion of the Police station and surrounding buildings at Chintapalli is a very urgent matter. In view of the two grave disturbances which have taken place in these Hills in the last ten years, it is of the greatest importance that the orders of Government regarding the satisfactory housing of Police at Chintapalli should be carried out. Unfortunately the difference in the views taken by the Agent

Agent and Colonel Porteous as regards
the system under which the Police
should occupy these Golconda Hills
hindered the completion of the works
at Chintapalli. Now that that matter
has been finally settled I hope
that no avoidable delay will take
place in carrying out the urgent
works referred to in this letter.

I have the honor to be,
Sir,

Your most obedt. servt.,

Mammethi
