To,

 The Inspector General of Prisons,
 Ootacamund,

Sir,

In returning herewith the warrant forwarded to me with G. O. No. $\frac{2190}{8.9.94}$ Judicial, I have the honor to report that the state prisoner therein referred to died in the Municipal dispensary, Anantapur, on the morning of the 2nd instant and that his remains were interred in the Mohammedan burial ground according to Mohammedan rites.

2. On the 8th May last, the state prisoner complained to the Stationary Sub-Magistrate, Anantapur, that he was suffering from a sort of mental aberration, that he could not see things clearly, that the climate of this place was too hot for him and that the

upper part

Upper parts of his feet were swollen. He was then sent to the District Medical and Sanitary Officer for observation who ordered the detention of the State prisoner in hospital for close supervision and treatment, as he was suffering from general debility and diarrhoea.

I issued orders in my memo R.C. $\frac{444}{24.5-95}$ to the Stationary Sub Magistrate, that he should be provided with any special articles of diet that might be reasonably necessary for him. Subsequently the District Medical and Sanitary Officer reported in his L. no.

$\frac{621}{30.5-95}$ that he (State prisoner) was growing worse and that arrangements might be made to transfer him to any other place. Before I could submit proposals to Government to transfer him to some Sea-Coast District, the State prisoner died.

3. The Stationary Sub Magistrate, Anantapur, has forwarded a bill for Rs 5-13-9 (enclosed), being the funeral charges for the burial of the deceased. I beg to request that sanction may be accorded for the payment of the same.

I have the honor to be
Sir,

Your most obedient servant

This healthy looking State Prisoner was admitted into the Municipal Hospital Bismillah on the 21st May 1895 for looseness of bowels said to be of a fortnight's duration. About a month ago he had an attack of dysentery for which he sought treatment and was cured. Since then he had not been keeping good health. He was occasionally with diarrhoea, vomiting and fever especially in the evenings. He used to have 3 to 4 motions daily and as he was getting weaker and losing flesh he was ordered to be admitted as an in-patient with a view to have better supervision in treatment and diet. Condition on admission - weak and anæmic, Tongue pale flabby and furred, appetite impaired, bowels moved 6 to 8 times a day. While under treatment at the Hospital diarrhoea persisted in spite of every effort to check it and became involuntary towards the end. Had also occasional vomiting, and fever temperature ranging from 100° to 102°. He grew worse daily, gradually sank and died at 3 A.M. on the 2nd June in spite of every effort to rally him.	Subsult.
