PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

From the Inspector-General of Police,
P. 3339, dated 1st June 1895.

With reference to your
endorsement P. 1772 C, dated 8 May 1895,
on copy of letter from the Superintend-
ing Engineer, Civil, P. 229 G.O, dated
23rd April 1895, I have the honor to
forward copy of a letter from the Super-
intendent of Police, Godavari, on
the subject. The Superintendent is of
opinion that the sinking of a fresh
well in a convenient spot is necessary.

Enclosure

Letter from the Superintendent of Police,
Godavari District, P. 592 dated 21st
May 1895.

Returning herewith S.W.D.
Current P. 2548/1895, received with
your endorsement P. 2958/16.5.95, I
have the honor to report that I have
recently been in correspondence with
the Superintending Engineer, I circle,
regarding the matter.
I inspected the well last month.

It is in a very dangerous condition. A well however is an absolute necessity in Kota; the Superintending Engineer is of opinion that it would not be safe to deepen the present one. Besides, a well 70 feet deep is not at all likely to be a useful one, and drawing water from such a depth for all ordinary purposes will be a very difficult task.

Under the circumstances, I would suggest the sinking of a fresh well in a more convenient spot.

Order thereon of 1499 W.D. 19 June 1895

Communicated to the Superintending Engineer Circle who will submit an estimate for a new well, the site for which should be carefully selected.
