SIR,

Enclosures.

Two.

I have the honor to request that, if possible, the Government will reconsider G.O. 18th December 1891, No. 2561, dealing with the area of land taken up for the Police Station at Tiruchanur in North Arcot.

2. The land originally available for the construction of the station consisted of two lots, one measuring 36' x 200' and the other 20' x 200' making in all a site measuring 56' x 200'. The front measuring 56' faces the village street and the land apparently runs back from that down a sharp incline to the river bank at the back.

3. The Government in the above G.O. refused to allow the acquisition of the western site measuring 20' x 200' so that now the station has been built on the other side, not facing

facing the street but facing the vacant site which the Government declined to acquire.

4. If this site is now built upon, as it no doubt will be, if it is not acquired, we shall have our station fronting a private house with an open space between of only 11 feet. I think it is hardly advisable.

5. There are very many reasons why a Police station should stand on an open site with ample frontage. The lock-up may, at times, contain many prisoners and a free air space in front is advisable. The approach to a station in times of disturbance or at any time when there is a crowd should be easy and further everything that goes on in a station should be as public as possible, which is hardly the case when the station has a frontage of only 11 feet opposite the blank wall of a native house.

6. For the above reasons, I venture to ask for a reconsideration of the order as referred to and for permission to acquire the second site at a sum of Rs 200 which the Superintendent states is the sum required. We shall then have our station

with a frontage of 31 feet and ample ground to the south of the station for the construction of Police lines, said to be much needed here. The land has a steep fall to the river, but I do not see that that should prevent the erection of Police huts, if some care is taken to level the ground to some extent first.

7. I enclose the Superintendent's letter on the subject and a sketch map of the site and its surroundings. I must apologize for placing the matter again before Government, but I think it is a matter of considerable importance to obtain good open sites for Police stations and to obtain land close by where lines may be constructed.

I have the honor to be,

Sir

Your most obedt. servt,

M. M. M. M.

As to whether the Sg's proposal - to
