with white paper*

With reference to P.W.D. G.O. No. 283 W dated the 5<sup>th</sup> February 1895, and in continuation of my letter No. 9/4 dated the 10<sup>th</sup> April 1895, I have the honor to forward for the approval and sanction of Government the enclosed plans and estimate amounting to Rs 9102/- for constructing a kitchen with circular cooking range and two rest sheds at the Lunatic Asylum Madras.

2. The Consulting Architect's report accompanying the estimate explains the necessity for these works.

I have the honour to be,

Sir,

Your most obedient Servant,

The delay in submitting this paper is due to the length of time which it took to revise 10. 27. 19 July 1895 No. 1511 - the original of which was required for reference.

There is  
I have sanctioned a new kitchen what I sanctioned was the repair (and the improvement) of the existing one. That should amply suffice. Take the larger than as the shed: — Take the larger one, the area of which is 2182.5 sq. ft. — This is 147 sq. ft. per every single one of the kind inmates, if I am right in my recollection that their total No. is 150. I consider it will suffice if the shed houses, say, 12 sq. ft. per half the total No. — The building should be cheapened by omitting all walls (they carry up some bamboo mats if necessary) by omitting verandahs and flooring only. It would be reducing the width of the building to a simple

The plans & estimates need with the foregoing papers are approved and will be transp. to the P.W.D. 2. It is observed that the estimates do not provide for the construction of a day-shed for patients in the 'noisy' enclosure. That is presumed that this is due to the fact that it will be requested to explain the cause of this omission. Submitted Monday for the construction of a separate noisy enclosure as completed in purs. of 10. 7. 17 July. No. 1511. Note.

P.W.D. (R.S.) with plans & estimates.  
Note

The provision made in the estimates for a day-shed for patients of the 'noisy' class has been designed to be struck out. The reason is not apparent. In G.O. 19. June

no 1501. Sanction was accorded  
for the preparation of plans  
& estimates for three rest sheds,  
one for criminal insanes, one  
for female patients and a third  
for patients of the 'insane' class.  
Necessary references for this current  
were not available  
5/9/95 until recently & hence the  
delay in subf. it for orders.

Coupler roof will suffice - The roof  
will be quite good enough if of battens  
with ordinary tiles instead of of teak  
& Mangalore tiles - Brick & cham pillars  
will be much cheaper than the  
iron & rail pillars -

The same as to the small shed

it was proposed to place the

that we decided that this shd.  
always be done.

ORDER. 8 17<sup>th</sup> September 1895, No. 1949.  
MS

It is observed that the G.O.  
read above merely authorized the  
preparation of plans and estimates  
for the repair and improvement  
of the existing kitchen, whereas  
the papers now received provide  
for the construction of an entirely  
new building. A revised estimate  
should accordingly be submitted  
2. The sheds which it is pro-  
posed to construct are unnecessarily  
large and expensive. Thus the  
area of the larger one comes to  
2582.5 sq. ft. which would give  
14.7 sq. ft. for each criminal  
insane, the total number for  
whom accommodation is provided  
being 150. It should suffice to  
build a shed providing a space  
of

of 12 sq. ft. for half the total number. The building should be rendered less expensive by omitting all verandahs and walls (bamboo mats being <sup>hung up</sup> ~~provided~~ [to keep off ~~the sun or rain~~] if necessary), by flooring only with gravel, and by reducing the width of the building to 15 ft. and by putting <sup>up</sup> a simple couple roof of palmyras covered with ordinary country tiles. For the proposed rail pillars, brick and ~~chamun~~ pillars should be substituted. Similar alterations should be carried out in the small shed
