To

Acting Registrar of the High Court,
Appellate Side,

Sir,

The District Munsif of Tumulprom having recently brought to my notice that the Ceiling of the Court-house was worn & eaten, that the floor was not asphalted and that there were leakages in many places although over Rs. 30 is annually spent for shifting tiles and as the building appeared to require substantial repairs, I requested the Executive Engineer to inspect the building and make the necessary repairs.

2 The Executive Engineer now informs me

...ent building is very old and requires thorough improvements and that the cost will in his opinion exceed Rs. 500.

3. I therefore request that the High Court maybe pleased to obtain sanction from the Government for executing the necessary improvements to the Court building at Tenelpram.

Extract from the Progress Report of Works in
Charge of Mr. V. Baker, Assistant Engineer, Calicut
Sub-Division, from 11th to 20th July 1895.

District Munsif's
Court Building,
Thomalapuram.

As a reference was lately received from
the District Judge of South Malabar about the special
repairs needed to the Buildings, took the opportunity
of being at Alathur to inspect the buildings.

The Court room is under a separate roof
from the Clerks' and record rooms. Both buildings
are very old and the roof looks saddeu with damp
and decay, doubtless most of the reepers and many
of the rafters are rotten with age and damp as the roof
is covered in with pan tiles which absorb and retain
the wet. The floors are out of order and uneven.
There is no doubt that the buildings require thorough
overhauling and substantial repairs.

It is a question for consideration whether
it would not be better to once for all demolish the
present buildings and erect others on the standard
design most suitable in every way for a District
Munsif's Court.

Executive Engineer.

There must be a new
building - Pending its con-
struction, the best way will
be to hire some building for
use as a court-house, if one can
be got - If not, the existing
building must be kept from
falling down as cheaply
as may be.

more than Rs 500.

The High Court recommends
(a) The construction of a new
court house for the D. Munsif
of Tenelpram, S. Malabar D., &
(b) The execution of the ne-
cessary repairs to the existing
building in order to render
it habitable until the com-
pletion of the new building.

The present court house
appears to have been con-
structed in 1861 at a cost
of Rs 1440 & is now said to
require substantial repairs.
If it is decided to erect a
new building it seems to
be unnecessary to spend
any more money on the
