CURRENT NO. 3752

From

R. B. Mitchell Esq.

Chief Judge,

Comt of Small Causes
Madras

To

The Honble Mr. J. F. Price C.S.J.,

Chief Secretary to the
Government of Madras.

Sir,

I have the honor to forward herewith the Plans and Estimates for the required rectifications and additions to the premises of this Comt, prepared by the Consulting Architect to Government. These plans have been carefully considered by me, with the Registrar and the Honorary Assistant to the Consulting Architect, Mr. J. H. Stephens, present, and after having had some small alterations and additions made to them, have been finally approved and countersigned by me.

2. I have the honor to request the sanction of the Government to the carrying out of this work, the need of which is much felt.

I have the honor to be,

Sir,

Your most obedient servant,

M.

is for the bad lighting which
should have been provided for
in the orig. design - I should

Please see H.M.'s remarks of 21-8-95.
The endorsement has issued long since &
the papers are submitted for order as to
whether H.M.'s remarks should be commu-
nicated to the P.W.D.
Mr. Handley appears to be responsible for
the omission of the melikane sheds
for attached property; Mr. Swin presumably
can only be held responsible for
the defective lighting of the building. It
was at first thought that Mr. Branning-
ton was the officer at fault, but
the plans (since obtained) show that
Mr. Swin passed the particular design.
Perhaps it will suffice to say.

"With reference to para. 2 of P.O.
"of 6 May 1895. No. 932 the Chief
"Engineer will be requested in the
"P.W.D. to see that the new plans
" & estimates prepared by the Council

Perhaps it would be better to communicate
a copy of the last sentence of this
remark up

"A sharp eye will readily have
the kept on W. Brown's designs"

The first sentence is open to the criticism
that the malikhana & shed would have
cost just as much if built in the first
instance, while the actual letting in
of the plate glass will cost very little
and it is possible that the design could not
have provided for adequate lighting without
plate glass
