Rules 701 and 704.

Narasimham
Superintendent of *Madras* Jail.

Dysentery.

Name and No. Narasimham Whittle No 3550

Age - 60.

State of health and weight } Indifferent
on admission into Jail } Wts 136

Sentenced for 1½ years. Re. Imprisonment.

Date of Confinement - 14. 1. 95

Date of admission into hospital - 22. 8. 95

Particulars of Case, treatment and diet.

This old and weakly Comrit was admitted to hospital for Acute Dysentery on the 22nd Aug/95. He passed, on an average, 3 dysenteric stools daily, after 1st Admission, but with Medical treatment and careful diet, the motions became healthy in appearance, though not formed. Oedema supervened, however, he began to grow weaker and since the 28th September, he has been gradually slipping into a chronic state of debility, Compd with general oedema and looseness of the bowels. The stools at present are not dysenteric.

Medical treatment has kept his symptoms in check, but he is getting weaker and weaker. Being a Brahmin, the surroundings

of Jail life appear to have much depressed
him & he broods over his Condition -

He has neither caused nor aggravated his
own Condition and I consider his Condition
will be so aggravated by further imprisonment
that his early death will be certain if he
remains in Jail, whilst he will have a fair
Chance of recovery, or material prolongation
of life, if released.

I therefore recommend his release
on Medical grounds and forward the
accompanying Certificate.

Treatment - Rest. Appropriate diet -
Stimulants, Ipecacuanha, Opium, Bismuth,
Astringents. Diuretics, Laxatives, &c.

No 41.

Report

J. J. B. Marsden, Surgeon Major,
Medical Officer, Central Jail, Rajahmundry,
Godavari District, hereby certify that Convict
No 3550, Narasimham Bhatlu, is in
my opinion dangerously ill, suffering
from effects of Dysentery. His illness has not
been caused or aggravated by any acts of
the Convict in order to procure release, and
I sincerely declare that in my opinion he
will certainly die very shortly if he remains
in Confinement, but that he will have a
fair chance of recovery (or his life will be
materially prolonged) if he is released.
