William O'Hara
Ag Superintendent of Central Jail,

Medical Case of Lunatic No 3883 Rama Jomden

Name . . . Rama Jomden

Age 36

Sentence 7 years

Date of Conviction . . 12th October 1893

Admission to Hospital . 21st May 1895.

Place of residence . . . Grade

Previous History

The patient was on admission to jail in October 1893 an exceptionally well set-up muscular man and was engaged on wool-laying.

On the 21st May 1895 he was taken into Hospital with symptoms indicative of commencing loco-motor ataxia - loss of co-ordinative power in the lower extremities, constrictive "girdle-pains", diminished patellar and other tendon reflexes and inability to stand blind-folded without swaying and tottering.

Present Condition.

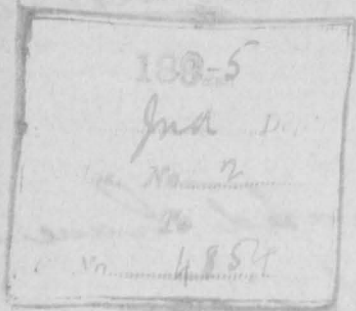

All the symptoms enumerated have increased in severity. The ataxia is more pronounced, his movements are "tumultuous" and he is unable to maintain his equilibrium. The girdle pains are more constant and severe and

and organs of special sense have become affected; both sight and hearing are considerably impaired and the patient's general health has suffered (there has been a loss of 21 lbs in body-weight within the past two months) as progression is impossible without considerable assistance the patient is practically bed-ridden; and the intensity of the nervous pains seriously interferes with sleep. Numbness and tingling of feet and legs are gradually ascending.

Unfavorable; the progress of the disease. Prognosis is uniformly from bad to worse; and as the case presents no specific cause for its origin, treatment is unavailing. There is no prospect of recovery and a fatal termination sooner or later must be predicted.

Trichinopoly.

Trichinopoly Central Jail
28 August 1895.

From.

Surgeon Lieut. Col. W. O'Hara
As Superintendent Central Jail
Trichinopoly.

To

The Inspector-General of Prisons.
Coatacamund.

Sir

I have the honor to recommend, under rule 592 of the Jail Code, the release of convict no. 3883 Rama Gounder

2. The prisoner has earned a remission of 34 days and in the ordinary course his release would fall on the 11th October 1900. His conduct in Jail has been good: he was admitted into Hospital on the 21st May 1895 and is still an in-patient having been 3 months and 7 days under treatment. His home is in the village of Tullsevithan palayam in the Erode Taluk, Coimbatore district and 5 miles distant from Erode Town. From his own statement it would appear that he has two brothers in the said village willing and able to look after him.

3. Prisoner has not been previously convicted: has been sentenced to 7 years R.D for dacoity: is suffering from locomotor ataxia and will never again be capable of committing a similar offence. He is helpless and practically bedridden. The disease under which he is labouring is incurable, and under ordinary circumstances can only, at an earlier or later period, terminate in death. Under these conditions his release is recommended.

4. Enclosed are prisoner's nominal roll and the report by the Medical Officer of the patient's case.

I

Camp Madras Prisons
OFFICE OF INSPECTOR-GENERAL OF JAILS,
Dated 12th October 1895.

No. C. 1232

CURRENT No. 4854

From

A. G. CARDEW, Esq., M.A.,

INSPECTOR-GENERAL OF JAILS, Prisons.

To

THE CHIEF SECRETARY TO GOVERNMENT.

SIR,

Enclosures.

I have the honour to submit for the orders of Government, under Rule 592 A of the Jail Code, a Letter No. 1796 dated 28th August 1895 with its accompaniments from the Superintendent, Central Jail, Trichinopoly recommending the conditional release of one Ramagoundan, confined in that Jail and suffering from an incurable type of locomotor ataxia. The Superintendent's Letter and the statement of the prisoner's medical case contain all the information required by Rule 592.

2. A reference was made to the District Magistrate, Coimbatore enquiring whether in his opinion, there is any objection to the conditional release of the prisoner on medical grounds and whether it is a fact that the Convict has 2 brothers in the village of Kuluvi-thampalayam, Erode Taluk, who are willing and able to take care of him if released. The District Magistrate states that he has no objection to the conditional release in question and that one of the two brothers is willing to receive the prisoner, if released, and look after him.

I have the honor to be,

Sir,

Your most obedient Servant,

A. G. Cardew
Inspector-General of Jails.
