No 42

I, J. C. Marsden, Surgeon Major, Medical Officer
Cent. Jail Rajahmundry, Godavery, hereby
certify that female convict no 3872 Sashamma,
is, in my opinion, dangerously ill, suffering from
effects of malarial cachexia - Her illness has
not been caused or aggravated by any acts
of the convict, in order to procure release,
and I sincerely declare that in my opinion
she will certainly die very shortly if she
remains in confinement, but that she will
have a fair chance of recovery (or her life will
be materially prolonged) if she is released.

Rajahmundry }
20th November/95 }

Alexander.
Surgeon Major
Medical Officer Cent. Jail

Death will be certain, if she remains in jail,
whilst she will have a fair chance of recovery,
or material prolongation of life, if released.

I therefore, recommend her release
on medical grounds and forward the
accompanying certificate.

Treatment.

Rest, appropriate diet,
Stimulants, Diuretics, Iron, Quinine,
astringents, &c.

(Second admission)

Particulars of case, treatment and diet.

This woman has been under treatment since the 11th September last, 1st as an In-patient, then on the invalid gang, and subsequently again as an In-patient - There is a history of previous attacks of malarial fever and since coming under treatment, Anæmia, with oedema of the face and extremities, has been increasing steadily. Since the 7th instant, there has been some diarrhoea and she is getting weaker daily in spite of careful treatment and diet.

She has lapsed into an apathetic state, with very feeble circulation and is pining for her release - She has neither caused nor aggravated her own condition and I consider it will be so aggravated by further imprisonment and the surroundings of jail life, that her early
