Sir

I have the honor to
recommmend the release under
Rule 592 of Council Malabar Pader

been practically in bed.

He is suffering from advanced
Sclerosis of posterior Column
of Spinal Cord (Locomotor Ataxia)
and now only walks with
the aid of another man, and
even this with difficulty.
The natural Course of his
disease is to become steadily
worse, and end fatally.

He was imprisoned on 20th
July 1887 under Sentence of
10 years imprisonment, and
has earned 486 ¹¹/₂₄ days of
remission, and his release
including

Encls. 1

including this remission is due
in March 11th 1896 -

2. Attached true Copies of letters
from the Sub Magistrate of
Yadiky shows that his brother
is willing to take care of him

3 From my observation of him
since November 21st 1894, I am
of opinion that he will not
live until March 1896, and
that his disease is not likely
to improve under treatment
