Lock Hospitals.

No. 19. *From F. C. DAUKES, Esq., Under Secretary to the Government of India, Home, Revenue, and Agriculture Department (Sanitary), to the Chief Secretary to Government, dated Fort William, 9th December 1880, No. 192.*

No. 19-A.

Communicated to the Surgeon-General with the Government of Madras who will, *at an early date*, furnish the information as regards the Town of Madras, and to the Military Department for information as regards Cantonments.

16th December 1880.

No. 20. *From Surgeon-General W. R. CORNISH, F.R.C.S., C.I.E., with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 29th December 1880, No. 571.*

Referring to Order of Government as per margin, I have the honor to forward the enclosed report from the Medical Officer in charge of Lock Hospital.

2. The results of Lock Hospital in Madras subsequent to 1870 have been already printed in the various annual reports.

3. At the present time the number of registered prostitutes in Madras under observation ranges between 700 and 800, and venereal diseases have so far diminished amongst this class that, at my late inspection on 21st instant, there were only 35 patients under detention, and of these not more than half-a-dozen of really bad cases.

ENCLOSURE No. 1.

This review of the working of the Lock Hospitals in Black Town and Vepery, which were in existence in the years 1869 and 1870, is submitted in obedience to instructions received from the Surgeon-General with the Government of Madras in Memorandum, No. 6881, dated 17th December 1880.

In consequence of the large number of admissions and the want of accommodation in the Black Town Lock Hospital, which was opened on the 15th October 1868, another institution

 கையெழுத்திடுபவர்

was opened in Vepery about the close of that year. Three of the Health Offices nearest to the Black Town Lock Hospital sent the women that were found diseased at the periodical weekly examinations to this institution, and the other three to the Vepery Lock Hospital, by which arrangement there was ample accommodation for the sick. The Black Town Lock Hospital received European and East Indian patients as well as Natives.

Black Town Lock Hospital.—On the 31st December 1868 there were 14 Europeans and East Indians in the Black Town Lock Hospital, 62 patients were admitted in 1869, making a total of 76. Of this number 72 were discharged cured and 1 died, leaving 3 remaining on the 31st December 1869. The average daily sick was 7½. Among the natives there were 57 remaining on the 31st December 1868, 553 were admitted in 1869, making a total of 610 treated. Of this number 541 were discharged cured and 6 died, leaving 63 remaining on the 31st December 1869. The average daily sick was 61½.

For the year 1870, there were 3 European and East Indian patients remaining on the 31st December 1869, 31 admissions in 1870, making a total treated of 34: 31 were discharged cured, 3 remaining on 31st December 1870; the average daily sick being 5.

Among the natives there were 68 remaining on the 31st December 1869, 307 admissions, making a total treated of 375: 311 were discharged cured and 11 died in hospital, leaving 53 on the list remaining on the 31st December 1870; the average daily sick being 59½.

Vepery Lock Hospital.—In the year 1869 there were 424 admissions, all natives—380, were discharged cured and 9 deaths, leaving 33 remaining on the 31st December 1869. The average daily sick was 63.

In 1870, there were 35 remaining in hospital on the 31st December 1869, 279 admitted, making a total treated of 314. Of this number 265 were discharged, 5 died, and 44 remained on the 31st December 1870. The average daily sick was 52.

Black Town Lock Hospital.—The diseases in 1869 among the Europeans and East Indians stood as follows:—

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	6	37	42	..	1
Syphilis	8	19	24	1	2
Non-venereal	..	6	6	..	..
Total	14	62	72	1	3

In 1870.

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	1	15	14	..	2
Syphilis	2	4	5	..	1
Non-venereal	..	12	12	..	..
Total	3	31	31	..	3

Among the Natives in the Black Town Lock Hospital in the year 1869 the following were the diseases:—

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	25	288	296	2	15
Syphilis	32	183	169	3	43
Non-venereal	..	87	76	1	10
Total	57	558	541	6	68

In 1870.

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	15	77	79	2	11
Syphilis	43	83	92	8	26
Non-venereal	10	147	140	1	16
Total ..	68	307	311	11	53

In the Vepery Lock Hospital for Natives, in the Year 1869—

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	..	132	129	..	3
Syphilis	..	177	147	8	22
Non-venereal	..	115	104	1	10
Total ..	..	424	380	9	35

In 1870.

	Remained.	Admitted.	Discharged.	Died.	Remaining.
Gonorrhoea	3	90	72	1	23
Syphilis	22	68	65	2	16
Non-venereal	10	121	128	2	5
Total ..	35	279	265	5	44

The cost of both the Lock Hospitals for the two years (which includes Medical Officers and Subordinates' salary, permanent establishments, diets, bedding and clothing, and furnishing up of the hospitals) was Rs. 63,011-9-8.

When the Lock Hospitals were first opened, many diseased women were then brought under treatment, the majority of them having been found in brothels and houses of ill-fame that were in existence prior to the introduction of the Contagious Diseases Act. The severe type of venereal diseases that came under observation during the early years of the operation of the Act does not now exist, and this single fact shows that a great public good has been effected during the last twelve years, not only by lessening the sufferings of the unfortunate women who live by prostitution, but also of thousands of men who consort with them.

MADRAS,
22nd December 1880.

(Signed) J. KEESS, M.D.,
Offg. Health Officer and
Supt., Lock Hospital, Madras.

No. 21. *Proceedings of the Madras Government in the Military Department, dated 24th December 1880, No. 8078.*

Sanitary—Lock Hospitals.

Read the following letter from the Surgeon-General, Her Majesty's Forces, Madras, dated 24th December 1880, No. 439.

In compliance with instructions contained in your Memorandum, No. 7901, of 17th instant, I have the honor to forward herewith the Statistical Tables* required in G.O., No. 2902, of 16th December 1880.

* Nos. 1, 2, 3, and 4.

26. 1880
This view of the working of
the Lock Hospital in Blacktown and
Vepery, which were in existence in
the years 1881 and 1882, is submitted
in obedience to instructions received
from the Surgeon General with the
Government of Madras in March 1881,
dated 17 December 1880.

The consequence of the large number of
admissions, and the want of accommoda-
tion in the Blacktown Lock Hospital,
which was opened in the 15th October 1880,
another institution was opened in
Vepery about the close of that year.
Three of the Health Offices nearest to the
Blacktown Lock Hospital sent the
women that were found diseased
at the periodical weekly examinations
to this institution and the other three
to the Vepery Lock Hospital, by which
arrangement there was ample ac-
commodation for the sick. The
Blacktown Lock Hospital received
European and East Indian patients
as well as natives.

Black Irons Hospital.

On the 31st December there were
14 Europeans and 1 Indian in
the Black Irons Hospital.

Patients were admitted in 1869,
making a total of 72. Of this number,
72 were discharged cured and 1 died,
leaving 3 remaining on the 31st December
1869. The average daily sick was 7 1/2.

Among the Natives, there were 57
remaining on the 31st December 1868.

558 were admitted in 1869 making
a total of 615 treated. Of this number,
541 were discharged cured and
6 died. Leaving 8 remaining
on the 31st December 1869. The average
daily sick was 6 1/2.

For the year 1870, there were
3 Europeans and 1 Indian patient
remaining on the 31st December 1870.
31 admissions in 1870 making a total
treated of 34. 31 were discharged cured,
3 remaining on 31st Dec 1870. The average
daily sick being 5.

Among the Natives, there were 68 remain-
ing on the 31st Dec 1870. 324 admissions
making a total treated of 392. 311

70/4 1/2
 were discharged and 11 died
 in hospital, leaving 33 on the list
 remaining on the 31st December 1870.
 The average daily sickness 54 1/2.

Peper's Lock Hospital

In the year 1869, there were 144 ad-
 missions, all natives. 38 were
 discharged cured and 4 died.
 Leaving 35 remaining on the 31st December
 1869. The average daily sickness was 13.
 In 1870, there were 35 remaining
 in hospital on the 31st December 1869.
 274 admissions, making a total treated
 of 314. Of this number 265 were dis-
 charged, 5 died and 44 remained
 on the 31st December 1870. The average
 daily sickness was 52.

Blackmore's Lock Hospital

The disease in 1869, among the
 European and East Indian stores as
 follows.

	Admitted	Discharged	Died	Remaining
Gonorrhea	37	42		1
Syphilis	19	24	1	2
Non-Veneral	6	6		
Total	62	72	1	3

1870.	Remains	Discharged	Died	Remains
Gonorrhea	1	14	2	2
Syphilis	2	5	1	1
non venereal		12		
Total	3	31		3

Among the natives in
 St. Hospital in the year
 1869. the following
 are the diseases.

	Remains	Discharged	Died	Remains
Gonorrhea	25	28	2	15
Syphilis	32	13	3	43
non venereal		87	1	10
Total	57	53	6	68

In 1870.	Remains	Discharged	Died	Remains
Gonorrhea	15	27	2	11
Syphilis	43	23	8	26
non venereal	10	117	1	16
Total	68	307	11	53

In the Lepery Dock St. for natives.
 the year 1869.

	Remains	Discharged	Died	Remains
Gonorrhea		129		3
Syphilis		147	8	22
non venereal		104	1	10
Total		380	9	35

1870.	Remains	Discharged	Died	Remains
Gonorrhea	3	20	1	23
Syphilis	22	68	2	16
non venereal	10	121	2	5
Total	35	209	5	44

The cost, both the Lock Hospital for
the two years which includes medical
officers and indigents, salary, Pension
-ment Establishment, Diet, Bedding and
Clothing, and furnishing up of the
Hospitals, are Super \$3,011-9-8.

When the Lock Hospital were first
opened, many diseased women were
then brought under treatment, the majority
of them having been found in brothels and
houses of ill-fame that were in existence
prior to the introduction of the Contagious
Diseases Act. The severe type of venereal
diseases that came under observation
during the early years of the operation
of the Act, does not now exist and this
single fact shows that a great public
good has been effected during the last
12 years, not only by lessening the
sufferings of the unfortunate women
who live by prostitution, but also of
thousands of men who consort with
them.

Lock Hospital
Maiden
22nd December 1880

Geo. Keble
Offg Health Officer and
Supt Lock Hospital

^{20/8}
The cost, both the Lock Hospital for
the two years which includes medical
officers and unskilled salary, Pension
ment Establishment, Diet, Bedding and
Clothing, and furnishing up of the
Hospitals are Super \$3,011-9-8.

When the Lock Hospital were first
opened, many diseased women were
then brought under treatment, the majority
of them having been found in brothels and
houses of ill-fame that were in existence
prior to the introduction of the Contagious
Diseases Act. The severe type of venereal
diseases that came under observation
during the early years of the operation
of the Act, does not now exist and this
single fact shows that a great public
good has been effected during the last
12 years, not only by lessening the
sufferings of the unfortunate women
who live by prostitution, but also of
thousands of men who consort with
them.
