In their order dated 4th March 1908, the Government remarked that the monthly cost of feeding Elephants in this District appeared to be high. Part I of the statement published at page 1 of the L. O. shows that the cost of feeding the two Elephants, "Flory" and "Clara" was Rs. 97 a month, i.e. the cost of feeding each was Rs. 48½. Part III of the above statement supports this figure. This is less than the expenditure on feeding of Elephants in most other Districts. The average monthly expense for feeding an Elephant in this District is made up of the items noted in the margin. Apparently in making the remark in the L. O. Rs. 97 were taken as the expenditure on account of one Ele-

phant, whereas it was really on account of two...

2. I take this opportunity to bring to your notice the fact that the elephant 'Clara' lately sent has been ill with dropsical swellings ever since she arrived here; she evidently has never recovered her health since being captured. Moreover she is utterly untrained and as yet can with difficulty be made to carry a few branches for her own food. Tents or a load of any ordinary kind she utterly refuses to carry -

3. Under the circumstances, her retention here is merely a useless waste of Government money; I would recommend her being sent to a station where there is some competent Elephant Fongdar to look after her health and education.
