GOVERNMENT OF MADRAS.
JUDICIAL DEPARTMENT.

17th January 1881, No. 81.

Police Stations.

Read the following papers:—

No. 58. *From W. D. HORSLEY, Esq., Acting Agent to the Governor, Goddvari District, to the Chief Secretary to Government, dated Cocanada, 2nd December 1880, No. 99.*

The Superintendent of Police has brought to my notice the necessity for clearing trees on the ground in the neighborhood of the Police Station and lines at Chódavaram in Rampa for defensive purposes. The Muttadar consents to the felling of the trees, and asks for Rs. 500 compensation. The cost of felling will amount to Rs. 50.

2. I have the honor to request that Government will sanction the expenditure of Rs. 550 on this work.

No. 2421.

No. 59.

MEMORANDUM.

The letter from the Acting Government Agent, Godávári, dated 2nd December 1880, No. 99, is referred to Mr. Foster for his remarks. It is observed that, while the felled trees should be made over to the grantee of the mutta, the need for compensation appears open to question.

MADRAS,
21st December 1880.

(Signed) J. A. DAVIES,
for *Chief Secretary*.

No. 60. *From W. S. FOSTER, Esq., Madras Civil Service, to the Chief Secretary to Government, dated Madras, 23rd December 1880.*

I have the honor to acknowledge the receipt of your official memorandum, No. 2421, dated 21st December 1880, forwarding, for my remarks, a letter, No. 99, dated the 2nd instant, from the Acting Government Agent of the Godavari District, which I herewith return. I do not quite understand what the Superintendent of Police intends to do at Chódavaram. I imagine that it is proposed to clear away the scrub jungle, and to cut down the large trees. These, if I remember right, are mango trees; if so, cutting them down would deprive the villagers of some food, but I cannot help thinking that Rs. 500 would be more than their value. If the whole space round the Police Station is to be kept clear, it would require an annual allowance, and Rs. 50 would not represent the total amount required; neither would it pay for carrying away the large trees, when they are cut, and they would form, when down, an excellent cover for rebels.

2. I do not know whether any decision has been come to as to the positions of the Police Stations which it is intended to keep up; but if it is proposed that these stations should be capable of being held by a small party of Police against a large body of rebels, Chódavaram Station will have to be shifted a little from its present position, as there are no means of getting water but at a distance of some hundred yards from it; so that it would be unwise to spend money on clearing the jungle just

round the station, unless we spend more in protecting the passage to the water and in clearing the jungle beyond it. If the space between the station and the water is simply cleared, the parties going to draw water will have no shelter from the fire of the rebels. If there is now any necessity for preparations for defence, we must also remember that we must use elephants, we cannot bring them inside the present enclosure, so we must leave some trees outside for them to stand under.

3. As for giving the felled trees to the Muttadar, I do not think he would care much for them, as trees are plentiful there. I have not the least doubt that to clear away the scrub jungle all round would be of considerable use for sanitary as well as for defensive purposes, but I cannot imagine that the Muttadar would require any compensation for this. If, however, it is decided to cut down the large trees, which are fruit-producing, it may be thought that he ought to receive some. I should have had some doubts whether compensation should be given, if I had had to give my opinion at first; but, as the recommendation has passed through the offices of the Collector and Superintendent of Police, it is likely that the parties interested may have heard of it, and be counting on the grant, and will feel aggrieved if they do not now get it. I therefore think it would be advisable to give it, especially as at the present time we shall require all our powers of conciliation to get anything like a correct census. But I would not advise that any money be spent, or any trees cut, until we are fully satisfied that it will tend to render the station capable of serving the purposes for which it may be decided it may be required.

No. 61.

ORDER THEREON, 17th January 1881, No. 81.

Communicated to the Inspector-General of Police with the remark that the selection of the future site for the Chodavaram Station needs special consideration with reference to Mr. Foster's concluding remarks. Nothing should be done in clearing the jungle till that question is settled.

(True Extract.)

B. DAVIDSON,
Chief Secretary.

December 23rd 1880.

Sir,

I have the honor to acknowledge the receipt of your Official Memorandum N° 2421, dated Dec. 21st 1880, forwarding for my remarks a letter, N° 99, dated the 2nd Instant, from the Acting Government Agent of the Godavari District, which I herewith return. I do not quite understand what the Superintendent of Police intends to do at Chodavaram. I imagine that it is proposed to clear away the scrub jungle, and to cut down the large trees: these, if I remember right, are mango trees; if so, cutting them down would deprive the villagers of some food, but I cannot help thinking that Rs 500 would be more than their value. If the whole space round the Police Station is to be kept clear, it would require an annual allowance, and Rs 50 would not represent the total amount required: neither would it pay for carrying away the large trees, when they are cut, and they would form, when down, an excellent cover for rebels.

2. I do not know whether any decision has been come to, as to the positions of the Police Stations, which it is intended to ^{keep} ~~be kept~~ up; but if it is proposed that these stations should be capable of being held by a small party

party of Police against a large body of rebels. Chadar
varan Station will have to be shifted a little from
its present position, ^{as there are} and no means of getting water
but at a distance of some hundred yards from it so
that it would be unwise to spend money on clearing
the jungle just round the station, unless we spend
more in protecting the passage to the water, and in
clearing the jungle beyond it. If the space between
the station and the water is simply cleared, the
parties going to draw water will have no shelter
from the fire of the rebels. If there is now any neces-
sity for preparations for defence, we must also re-
member that we must use elephants, we cannot
bring them inside the present enclosure, so we must
leave some trees outside for them to stand under.
3. As for giving the felled trees to the Muttahdar,
I do not think he would care much for them, as
trees are plentiful there. I have not the least doubt
that to clear away the scrub jungle all round would
be of considerable use for sanitary, as well as for
defensive, purposes; but I cannot imagine that
the Muttahdar would require any compensation
for this: if, however, it is decided to cut down the
large,

large trees, which are fruit-producing, it may be thought
that he ought to receive some. I should have had some
doubts whether compensation should be given, if I
had had to give my opinion at first, but as the recom-
mendation has passed through the offices of the Collector
and Superintendent of Police, it is likely that the parties
interested may have heard of it, and be counting on
the grant, and will feel aggrieved if they do not
now get it. I therefore think it would be advisable to
give it, especially as at the present time we shall re-
quire all our powers of conciliation to get anything
like a correct census. But I would not advise that
any money be spent, or any trees cut, until we are
fully satisfied that it will tend to render the station
capable of serving the purposes for which it may
be decided it may be required.

I have the honor to be, Sir,
