Please state your opinion
below on the suggestion
made in the accompanying
letter as to restricting the
period for the regular
subscriptions to the last
two Reports.

The proposals if carried
out will tend to decrease the
number of subscribers, which
I think is not advisable.

I suppose if a limit being
fixed, I expect, that
subscriptions within the first
six months be supplied with
the complete series. After

To,

The Secretary to Government

Judicial Department, Bombay.

Sir,

I have the honor to submit for the consideration and orders of Government the accompanying copy of a letter No 283 P. dated the 27th August 1886 to my address from the Superintendent, Government Printing in Bengal, and to state that I have received from several of the subscribers to the complete series of the Indian Law Reports lately registered by me, complaints that they have not got their copies of the numbers of the Calcutta series from January to May 1886.

2. I do therefore respectfully beg to ask whether under the circumstances stated by the Superintendent, Government Printing in Bengal, I should refund to the subscribers the portion of the subscription for the Calcutta series, and whether I should discontinue registering until the end of the current year any more subscribers.

subscribers for the complete series of the Indian Law Reports.

3. I humbly beg to suggest that the difficulty might be removed if the Government of Bengal could be moved to cause the numbers of the Calcutta series, which have been exhausted to be reprinted.

4. The difficulty is likely to recur every year. It could only be prevented, I humbly think, by restricting the period for the registry of subscribers for the complete series of the Indian Law Reports, by payment of the subscription in advance to the first two or three months of each calendar year, instead of as at present allowing it to extend over the whole of it. At present, a subscriber can claim registration until the very last day of the year, and the publishers of the different series cannot frame an accurate estimate of the number of copies that will be required for consumption in the year.
